## GUIDING QUESTIONS TO PREPARE FOR YOUR SCHOOL'S NEW CYCLE OF ACCREDITATION

*If your school is preparing for reaccreditation this section must be completed.*

The accreditation experience should be a developmental process in which the school community becomes more familiar with the school improvement process, the staff's skill with strategic planning is increased and the school's capacity for continuous growth and improvement is enhanced.

As you complete the accreditation cycle it is important that you take stock of what has been achieved, those things yet to be completed and the lessons learned from the Planning Process. In addition to celebrating what has been accomplished as a result of the accreditation process it will be important to reflect on the experience and to use the lessons learned in planning for the school's new cycle of accreditation.

To assist you in this reflection the following questions are provided as a framework for a substantive discussion about the improvement cycle which is about to conclude and to use the results of that discussion to inform the decisions you will need to make as you embark on planning for your school's continuous improvement.

### Directions

These questions should be discussed with your existing Planning Team or with those who will be responsible for planning **before you begin the self study**. Use this reflection as the first activity of the new planning process. Participants in this exercise may find it helpful to review the last Team Report, the last Mid-Term Report, and the recent periodic/annual reviews to inform this discussion. Briefly summarize your discussions in the spaces provided.

### 1. How has the context of your school and/or the school community changed?

Indicate any major changes to the Context of the School since the last Team Visit. Refer to the last Team Report and the Mid-Term Report to describe any significant changes that have affected or will affect the school's improvement planning process and/or the school's compliance with the Middle States Standards for Accreditation. Be sure to include changes in the school or community demographics, governance, finances, facilities or programs offered.

During the last Team Visit, we had only 2049 students across Primary and Secondary school. Currently, we have a total of 2246 students which is a 9% increase across the entire school, 15% increase in students in the Secondary, and we have doubled the size of the IB Program. As a result, we added a DP Coordinator position and the Whole School Principal now oversees the program. The overall increase in student population has impacted staffing, the procurement of rooms for classes, the care blocking/scheduling of classes, speciality classroom time is at a premium (PE facilities, science and computer science labs).

In addition to our ongoing commitment to meaningful accreditation by reputable authorities such as MSA, IBO, AdvancED, BSME, and BSO it is a requirement of our school that we

comply with the national Ministry of Education's expectations. The Ministry of Education met for over a year to change the entire American protocol for credits earned and how courses are counted at Egyptian Universities. Once it was approved, the protocol was later cancelled by the Ministry of Education. Schools have to be flexible and open-minded as changes can come about swiftly and then revert to the status quo.

The Ministry of Education impose an annual audit of school registers, teaching faculty, curriculum and teaching resources. We always receive positive feedback from them and there is never any question that MES Cairo is fully compliant. Since the last visit, our school has been granted flagship status with regard to MOE compliance.

A change in protocol for international School offering a British curriculum has recently been decreed, enabling schools to apply for 'Independent Exam Centre' status. We were one of the first schools to register our interest in independence from the British Council with regard to exam administration and have since become the first school in Egypt to obtain 'Independent Exam Centre' status.

The entire school has migrated to single Learning Management System – Google Classroom whereby students and parents can access the curriculum at any time and anywhere. Teachers post all assignments to the platform itself and this has led to more online feedback, decrease in the use of paper, more collaboration among departments, an immediacy of feedback to students and parents, and teachers can access their Google Drive and classrooms anywhere they wish. The use of Google Drive and Team Drives have replaced the network folders the school had in place. In order to access your file, if not locally stored, you would need to be on campus in order to do so. We are also beta testing Google Gradebook as a part of the educational tools they offer.

The Whole School Principal currently in post was appointed in 2016 and her essential focus has been on unifying the school. The 'One School' ethos is more palpable than before; there is greater cohesion between Primary and Secondary, and between sections. This has been achieved through the alignment of policies and practices, as well as leadership that has deliberately sought to bring stakeholders together. School Development Advisories have been critical to the progress we have made in this regard.

## **2. Will you need to revise your foundation documents for this self-study?**

Review the Foundation Documents (Mission, Beliefs/Values and Profile of the Graduate) for your school, discuss if there is a need for any revisions or if there is a need to recommit to them for the next cycle of accreditation.

Foundation documents are reviewed annually. With accreditation approaching particularly close attention was given to our Mission Statement, our core values and our Graduate Profile. The consensus of the review was that no revisions were necessary.

## **3. What progress has been made on the attainment of the school's improvement goals/objectives and implementation of the action plans?**

- a. Review your objectives/goals that have been attained. Include any action plan strategies that believe were particularly effective in achieving the targets of the objectives/goals.

Our Whole School Development Plan presents the school's priorities for future improvement. It begins with the presentation of essential, generic aims which are then interpreted by each Section, in turn translated into specific goals at Departmental/Year Group level. This has changed since the last Team Visit. The very nature of how we define and drill down to specifics and measure progress has been more inclusive allowing a number of teachers and Year Team Leaders/Head of Department to take on ownership and a leadership role defining those generic aims to more meaningful goals for their department.

In 2012, we identified the need to streamline the tracking of students from Primary to Secondary. We sought to implement a common database so that information could be shared with greater ease and efficiency. We designed a Classroom Monitor database with software providers specific to our school's needs. Currently, all information that is added to Primary Classroom Monitor teachers in Secondary can view. Students in the British section continue to use Classroom Monitor in Key Stage 3, while the American Section students utilize GradeQuick. The programming in GradeQuick has been modified based upon the sectional need for reports to track student performance. Mean, mode, and average sections were added per assignment and the termly average. Reports have been added that allows for Heads of Department to utilize improved reporting so grades can be formally audited on a regular basis.

In order to track and show to students and parent math and reading improvement, we have used the MAP data information and are using ReadTheory (for improved Lexile levels), NoRedInk (language acquisition), and the Khan Academy Math program for math in Middle School through Grade 9. Students are able to see their success rates beyond the twice annual MAP test, which improves overall disposition of learning as well as communicating valuable information to the parents.

The use of the Graduate Profile has been improved by the development of the Elements in Secondary whereby students are engaged in specific activities through the Homeroom Community Forum to improve focus on dependability, effort, integrity, readiness, and respect.

Since the last accreditation, the school migrated to Google Classroom so we can shift the focus across the school from merely being able to access curriculum, to a more collaborative online approach to teaching and learning. Training has been provided to all teachers across the campus based upon staff surveys. The school has upgraded the interactive panels in classrooms, improved wifi accessibility, and extended the BYOD from Secondary into Primary [Years 5-6].

Recognition of students demonstrating 5 Rs is acknowledged with a certificate at 'Star of the Week' assemblies

Class and Pod assemblies will focus on the 5Rs

SDA group has reviewed how the 5Rs in Primary School align with the Elements in Secondary to ensure consistency in the approaches used

Review of planning documents to explore how the 5Rs can be incorporated in the planning of each topic

Consistency in ensuring all classes have a 5Rs display

All staff have completed at least four Educare courses relevant to child protection, safeguarding, well-being, health and safety as well as having to attend staff assemblies.

- b. Review your objectives/goals that have not been attained. Include an analysis of the implementation of the action plans and the effectiveness of the action plan strategies identified to achieve the targets of the objectives.

We have determined that measurable progress has been made in each of the identified priority areas for development since the last accreditation term, and more.

- c. Review the goals/objectives, if any, from the last accreditation term that remain relevant and should be pursued in the re-accreditation. (These can include goals attained on which you plan to build further improvement or goals not yet reached)

- 1) The independent learning goal has been continued as a 21st Century Soft Skill as a part of our use of collaborative instructional tools;
- 2) The goal we submitted in 2012 about being socially responsible member of the community has been extended through organizational capacity goal #2; our focus now is drilling down into the qualities of the graduate profile and focussing on developing students in Primary through the 5 R's, the Elements in Secondary, through the increased offering of after school activities that focus on service.
- 3) Our previous goal to enhance communication of student attainment has been met through the use of Google Classroom, an open grading application called the Parent Portal, sharing CAT and MAP data with parents, and the use of Classroom Monitor in the Primary and British Systems. The IB system uses ManageBac. The Secondary school also offers full parent day progress meeting times [three times per year] similar to the open days offered in the Primary. Intervention and teacher team meetings are still offered across the school.

#### **4. How effective was your Planning Process?**

- a. Consider the role of the internal coordinators, administration, Planning Team/Steering Committee, and implementation and communication strategies and how effective they were in sustaining growth and improvement.

Discuss the effectiveness of the Planning Process and what you could do to make it more successful.

Each member of the planning team are members of the School Development Advisories (SDA's) for the Whole School Development Plan, which on an annual cycle. The planning team was not devised out of the need for reaccreditation, but serve to improve the performance of the school and school community. During each meeting of the 4 SDA's, they reviewed the previous minutes to determine the next steps and create action plans. The

committees meet at least twice per school term, for a total of 6 times during the academic year to monitor progress, review steps moving forward, and to report out to the other committees the progress with supporting documentation. In addition, the planning team and the Senior Leadership Team monitored progress made and produced solutions for areas where progress appeared to be insufficient. This format will continue with the new Whole School Development Plan.

Each staff member was updated on the goals and progress of each committee at the onset of the academic year, mid-year, and at the close of the academic year. In short, the planning team met during the academic year, determined the next steps and the plan of action to achieve and make progress towards the goals, routinely communicated the progress with supporting evidence of progress made, received feedback from the Senior Leadership as a way to guide the team's progress to achieve those goals, and modified the development plan with the input of the senior leadership team so that continuous progress was made.

As a senior leadership team, the school development plan is consistently reviewed with the progress committee Chairs and Assistant Chairs. For this academic year, the entire plan has been revised based upon the feedback from our multiple accreditations and the self-assessments that we have completed. The revised Development Plan will enable the school to focus on making additional strides with regards to learning strategies and the continued implementation of interactive technologies so students are engaged and can achieve their learning goals.

From the Whole School Development Plan, each section then adds meaning and provides an interpretation about how that particular section can support the WSDP. Within each section, each department will then provide specific strategies and data reviews regarding each component of the sectional and whole school plans. In the end, the school has a rich, full, and descriptive development plan that the whole staff is able to be aware of and be participatory. Involving multiple stakeholders allows for positive buy-in by each teacher. This process of sharing, collaboration, critical review, and reflection is vital to make continuous improvements.

It is important to note that our approach enables compliance with the sentiment of the various accreditation processes we engage in: BSO, IBO, Cognia, MOE Egypt and MSA. This is significant for our school and our staff as adopting 5 entirely different approaches to strategic planning and target setting would be untenable.

- b. Identify those aspects of the Planning Process that you would carry forward in order to sustain growth and improvement.

As outlined in 4a, the systematic way in which we utilize the SDA's as the planning teams for the school along with the Year Team Leaders/Heads of Department allow for ownership and leadership of school improvement amongst our staff. Moreover, it is vital for our success as a school to keep this system in place whereby committees are not borne out of the necessity of accreditation, but driven by school improvement. Basically, the SDA's along with our Senior Leadership Teams (SLT, SSLT and PSLT) guide us through each accreditation/inspection process. The SDA's and the SLT are the constants in a dynamic international school that offers multiple curricula.

--

**5. Did you use Excellence by Design for your last accreditation?**

Yes  X                       No \_\_\_\_\_                      Not Sure \_\_\_\_\_

If no, what protocol did you use?

NA
----

**6. Why did you choose Excellence by Design for this self-study?**

During a training session at the NESAC conference last year, each protocol was reviewed. Based upon that information, the resources provided on the website, a discussion with the team, the <i>Excellence by Design</i> protocol seemed to suit the needs of our school as we are seeking re-accreditation.

# ORGANIZATION FOR SELF-STUDY

In this section of the school's self-study, the school is asked to ensure it has the organizational elements and processes that are necessary for the school to be successful in achieving its Plan for Growth and Improvement. The school has or has developed the organizational elements and processes described below:

***Instructions: If the school has in place organizational structures and systems that meet the criteria for the information requested below, the school is encouraged to change the terminology in this template and to enter the information and data that are appropriate to the school.***

## Leadership

### A. Internal Coordinators

The Internal Coordinators for the self-study and accreditation process are:

Name	Role in the School
Nicola Singleton	Whole School Principal
Dodie Pfeil	Principal, Secondary American Section

### How and why were the Internal Coordinators selected?

The Internal Coordinators were selected by the Managing Director and the Chairman of the Board. It was important, due to the structure of the school and the complexities of multiple accreditations, that members be selected that were in a position to have a comprehensive understanding of the workings of the school.

Nicola Singleton was chosen because of her familiarity with all aspects of the school (in her capacity as WSP as well as her length of service) and her appreciation of the MSA accreditation process and standards.

Dodie Pfeil was chosen because of her familiarity with MSA standards and her ability to support MSA and visiting team members decipher aspects of our multi-curricula school from the perspective of a US educational background.

Both Nicola and Dodie are senior leaders at MES Cairo with expertise, experience and capacity to best represent the school for the purposes of MSA accreditation.

### How did the Internal Coordinators fulfill their role and responsibilities?

From January 2019, the Internal Coordinators along with the MSA Team and (School Development Plan Advisories), planned, organized, and met for the purpose of school improvement and to complete the self-study. In addition, the team used the training materials

provided on the MSA website for workshops in order to have a clear understanding of the various phases of the review and planning process. It was critical that the Internal Coordinators had time to meet frequently to ensure that progress was being made in the completion of the protocol per the MSA guidelines.

Nicola and Dodie undertook the coordination of the self-study ensuring consultation with a wide range of representative stakeholders.

They pooled feedback from multiple focused discussions with a variety of contributors to best ensure a full consideration of the school's performance against the MSA standards, and define plans for future development.

A significant amount of their work on the Self-Study is reflective of the embedded practices that are a routine part of their roles and responsibilities. Additional meetings provided the necessary focus to ensure that the self-study objectives were best met.

**What kinds of support and assistance were provided to the Internal Coordinators to enable them to fulfill their responsibilities?**

Members of the school's Senior Leadership Team which includes both our Chairman of the Board and Managing Director provided feedback and offered suggestions. The Internal Coordinators were supported by assisting with survey delivery, providing documentation and notes from the School Development Advisories, facilitating groups meetings, and clarifying questions for the Planning Team.

Dedicated time and access to relevant information. We benefit from a highly supportive and consultative culture within the school. As stated above, much of the Self-study completion was aligned to pre-existing processes within the school; additional 'work' was limited.

**B. The Planning Team**

**The members of the Planning Team are:**

Name	Role in the School
Sawsan Dajani	Chairman of the Board
Ghada Dajani	Managing Director
Nicola Singleton	Whole School Principal
Catherine Readman	Headteacher, KS1
Cath Jama	Headteacher, KS2
Linda Talbot	Headteacher, Secondary British Section
Dodie Pfeil	Principal, Secondary American Section
Sarah Clingan	Deputy Head Teacher, Secondary British Section
David McKoski	Vice Principal, Secondary American Section

Christine Downey	Deputy Head Teacher, Secondary
Jane Boukottaya	Deputy Head, Primary KS2
David Barton	Deputy Head, Primary
Suzanne Sheehan	Assistant Head Teacher, IBDP
Jennifer Cole	Assistant Head Teacher, Teacher Training
Samantha Rawlings and Sarah Farag	SDA1 Representatives/YTL Y3 + YTL Y5
Rachel Bennett and Christine Flake	SDA2 Representatives /Prim AH + Sec DOS
Sarah Clingan	SDA3 Representative/Sec DH
Taher Naggar	SDA4 Representative/ Secondary IT Teacher
Nesreen Saleh	IT Coordinator – Administrative Staff

**What charge was given to the Planning Team? What authority was it given to oversee, monitor, and make decisions regarding the school’s planning for growth and improvement in student performance and organizational capacity?**

MES Cairo is led by an extraordinary BOD, led by the inimitable Chairman, Mrs Sawsan Dajani. She is ever-present in a way that is truly constructive to the efficient leadership and management of our school. She has profound respect for the educational leaders and teaching staff, empowering them with significant autonomy to positively direct all aspects of teaching and learning for the benefit of students. Mrs Dajani and Ghada Dajani, as representatives of the BOD, ensure accountability through their continued interest in all aspects of school life and meticulous attention to detail. Each serve as chairs of the Whole School Development plan led by our Whole School Principal, Nicola Singleton.

The Whole School Principal leads a highly competent, passionate Senior Leadership Team. The four Heads of Section work closely with her to define and implement targeted improvements; they lead their staff teams with the common focus and clarity that is defined in SLT meetings. Heads of Sections are attached to SDAs for SLT input as required, but they are not allowed to Chair the SDAs; member of PSLT nor SSLT are permitted to be non-office holding members of the SDA to ensure that these forums are teacher-led.

We use the WSDP SDA’s as a catalyst for focused action. Occasionally we must respond to unanticipated need, but for the most part school leadership and management is guided by the WSDP and suggested outcomes of each SDA. CPD requests are only considered if they align to an aspect of the WSDP.

**How does the membership of the Team reflect the diversity within the school’s community of stakeholders?**

School Development Advisory groups comprising members who are carefully selected to ensure school-wide representation, inform and monitor progress over their associated WSDP objective. In addition, the agendas of SLT, SSLT and PSLT meetings prioritise discussion and review of our progress in realizing the WSDP aims.

Our Self-study journey spanned the second half of one academic year and the beginning of another, so as to ensure consistency, we appointed a number of additional Planning Team members beyond the SDA groups initially consulted. This ensured continuity that reflected

the diversity of our complex school which survived beyond the reconstitution of SDAs for the next academic year.

### **How were the members of the Planning Team selected?**

The membership of the team is reflective of the team members associated with the other accreditations, those involved in the School Development Advisories, and members of the leadership teams across all phases and sections of Primary and Secondary. This team was selected as they represent all phases of the school, however their membership and dedication to the School Development Advisories was a key factor. The MSA Planning Team is also the School Improvement Committee.

### **How does the Planning Team function and make its decisions?**

The Planning Team serves as an egalitarian group making recommendations and decisions by consensus guided by the Internal Coordinators and members of the Senior Leadership Team.

### **How often did the Planning Team meet? (Provide a list of the Planning Team's meetings and minutes in the Visiting Team's workroom.)**

October 2018  
December 2018  
January 2019  
February 2019  
March – Workshop  
March – Planning Team Retreat  
September - Planning session for revisions to the WSDP and SDA membership  
November - SDA Meetings Continue - Whole School SDA Meeting November 3rd

### **What is the Planning Team's relationship to any other groups in the school, if any, responsible for planning for growth and improvement in student performance?**

All other strategic planning team bodies are represented on the Planning Team:

- Senior Leadership Team
- Primary Leadership Team
- Secondary Leadership Teams
- School Advisories - 1, 2, 3, and 4
- Board of Directors
- Secondary Heads of Department Team
- Primary Year Leader Team

### **What is the Planning Team's plan for rotating membership and identifying new members? What is the plan for training and orienting new members to the work of the Team?**

The Planning Team are members of the Whole School Advisory Committee. The Secretary and Chairs are rotated each year voted on by the SDA. Members that leave are replaced on a yearly basis ensuring that there is representation from all sections and age phases of the

school. All staff and new members to the advisories receive an induction to the goals for school improvement.

### **How will the Planning Team function after the visit of the Visiting Team and during the implementation of the Plan for Growth and Improvement?**

The Self-Study and Action Plans within the context of the Whole School Development Plan (WSDP) are now complete. The Whole School Development Plan is supported/monitored by four School Development Advisories (SDA's) with members from each phase and section of the school. SDA 1 represents issues regarding teaching and learning; SDA 2 is about Student Leadership; SDA 3 was Alumni connectedness and is now School Community Well-being; and SDA 4 is instructional technologies. Each of the SDA's are responsible for the implementation and monitoring of the achievement of the WSDP goals. Each member of the Senior Leadership Team are members of each SDA (although may not fulfil the role of SDA Chair).

Members of each SDA meet at least twice per term (minimum 6 times per year) with the Whole School Development Plan committee meeting once per term. Achievement of goals are reported by each Head of Department for Secondary and the Year Team Leaders in Primary. Achievement of goals are celebrated among the staff during staff briefings that take place weekly, reported in MESsenger articles and the Whole School Newsletter, and published through a variety of social media outlets.

The SDA structure and impact will continue after the MSA visit; it is imbedded structure within our cycle of strategic planning, evaluation and review.

### **C. Role of the School's Leadership and Governance**

#### **What role has the school's leadership and governance played in the self-study process and the planning for growth and improvement in student performance?**

Members of the Senior Leadership Team are also members of each SDA and are members of the Planning Team. The Principals/Headteachers all coordinated the collection and organization of all documentation during the self-study.

School Leaders are an integral part of the Whole School Development Plan review, consultation and redrafting process. In terms of school improvement school leaders are the colleagues responsible for defining next steps and best ways forward in consultation with a variety of other POR holders across the school's line-management structure.

#### **How has the leadership provided support for the self-study and accreditation processes?**

The biggest gift was that of time to provide training and guidance to each member of the Planning Team and opportunities to meet as a collective to ensure progress towards the intended goals.

School Leaders also carefully managed the process to best avoid 'accreditation fatigue'. They are conscious of ensuring that school practices and review routines align generally with the

expectations of the various accreditation agencies we work with. They worked extensively prior to and during this process to ensure that established practices aligned to MSA Excellence By Design objectives.

**If the school is part of a larger system of schools, what role did the leadership and governance of the system play in the planning process? What kind of support did that leadership and governance provide for the school's planning efforts?**

NA

#### **D. Implementing a Planning Ethic**

***Instruction: Describe below the school's plan for implementing a planning ethic, including:***

- A system for monitoring implementation of the action plans;***
- A system for ensuring that the assessments designated for measuring the performance objectives are administered and that the results are collected, analyzed, and used to determine the efficacy of the action plans; and,***
- A plan for celebrating the school's successes in moving toward achievement of its objectives.***

Within the Whole School Development Plan each key action includes a plan for documentation of progress as well as a timeline for full implementation. For each key action, the stakeholders involved are denoted clearly within the WSDP. All SLT, PSLT, SSLT meetings agendas include discussion on perceived and realised progress with WSDP aims.

The Self-Study and Action Plans within the context of the Whole School Development Plan (WSDP) are now complete. The Whole School Development Plan is comprised of 4 School Development Advisories (SDA's) with members from each phase and section of the school. SDA 1 represents issues regarding teaching and learning; SDA 2 is about Student Leadership; SDA 3 was Alumni connectedness and is now School Community Wellbeing; and SDA 4 is instructional technologies. Each of the SDA's are responsible for the implementation and monitoring of the achievement of the WSDP goals. Each member of the Senior Leadership Team are members of each SDA (although cannot Chair the SDA).

#### **E. A Plan for Communication and Awareness**

***Instruction: Describe below the school's plan for communicating with and keeping the school's community of stakeholders aware of, involved in, and supportive of the self-study process and the implementation of the Plan for Growth and Improvement.***

Our review structure identifies committees for each School Development Advisory – all members of the Planning Team – who dutifully met and spend an enormous amount of time and effort to report the outcomes in order to keep everyone informed of the continual progress.

The Whole School Principal is the Chair of the Whole School Development Plan and outcomes are shared during the weekly Senior Leadership Team Meetings. Progress is also shared during faculty meetings by the SDA Chair and/or secretary. All notes are shared via Google Docs so that addendums are easily recorded and shared with a wider audience. Moreover, the school newsletter, staff and student assemblies, and student council meetings are also mechanisms for updates.

## **F. A Plan for Periodic Reviews of the Plan for Growth and Improvement**

***Instruction: Describe in this section the school's plan for conducting periodic reviews of its Plan for Growth and Improvement, including:***

- ***The schedule of reviews by the Planning Team***
- ***How the Planning Team will review***
  - ***Progress toward implementation of the actions plans***
  - ***The results of implementation of the action plans***
  - ***The results obtained from administrations of the assessments used to measure achievement of the objectives***
  - ***Revisions made to the action plans based on those results.***

As stated in sections B9 and D, the SDA chairs and secretaries meet with their review committees through the academic year (at least 6 times as calendared). Progress is noted and shared through the minutes. Minutes and progress are shared in meetings of all Whole School Development Committee (combined SDA's). Key actions and progress are shared and articulated throughout the academic year. Data analysis from surveys and assessments are also carried out annually and reported and noted in the Whole School Development Plan.

The WSDP is reviewed throughout each academic year, with a final review completed in early June. This involves a full disaggregation of data and aligns to the completion of the Professional Learning Development Portfolio by all teaching staff, including school leaders; a significant part of the PDP process is a review of progress with WSDP targets. Through this process of deep review we arrive at a point of confidence in defining priorities for the year/s ahead, which then get translated into the revised edition of the WSDP.

## **THE SCHOOL'S FOUNDATION DOCUMENTS: MISSION, BELIEFS, AND PROFILE OF GRADUATES**

The first major task of the self-study process is establishing a preferred future for the school. This is done by developing or reviewing/revising the school's Foundation Documents, which include: Mission, Beliefs, and Profile of Graduates. These foundational documents answer the following questions:

- *What is our vision for a better future for the children of our school?*
- *What beliefs or core values will guide our journey?*
- *What will our students have to know, be able to do, and to demonstrate for us to achieve our mission?*

These statements are the cornerstone of the school's long-range planning and day-to-day decision-making.

## **A. MISSION**

### **What is the school's Mission?**

*Leadership through Education: Care, Challenge, Inspire*

MES Cairo is committed to excellence in education. The core business of the programs we offer is to foster a school culture that values individual growth, daily success, and positive relationships. Ultimately, students will emerge from the program as confident and well prepared individuals ready to meet the rigorous challenges that life has to offer. We recognize that we live in an ever-changing world. Our purpose is to assist, prepare, and inspire our students to harness their interests and passions and set them on a post-secondary curricular path that will achieve those ends. The challenges of current times in the country, in the region and indeed globally, mean that our students have crucial roles to play in the future state of the nation and beyond. The heavy weight of responsibility to best prepare them for this is taken seriously by our Board of Directors, School Leaders, Teachers and other stakeholders. Beyond the explicit curriculum at our school we have a strong commitment to helping the young people in our care develop into responsible, reflective young adults. Our graduates are the best evidence of this.

### **How and by whom was the school's Mission developed/reviewed/revised?**

The school's Mission was devised by the founding BODs in consultation with the founding Principal and the team of teachers who started the school in 1990.

Annual consideration is given to its relevance in a context which is constantly evolving yet we have concluded on each occasion that it still reflects our essential purpose well. Minor adjustments were made in 2012, which is the same year we introduced our Graduate Profile. Senior school leaders, other faculty members and the senior most Student Council representatives are involved in the annual review.

### **How does the school ensure that its community of stakeholders understands and supports its Mission?**

Our Mission is visible around campus and in school literature. 'Care, Challenge, Inspire' is something our students, parents, teachers and alumni are all familiar with - it is consciously and deliberately referred to in every parent information meeting and student assembly. The language of our Mission statement features in report commentaries and individual meetings with students and/or parents.

### **What is the date of the most recent revision/adoption of the school's Mission? Who approved the most recent revision/adoption?**

The School's Mission is reviewed annually. It was last reviewed in January 2019 by our BOD, SLT, PSLT, SSLT and senior Student Council members. The consensus of all groups was that the Mission was still pertinent to our values, aims and prerogative and accurately captured the essence of what MES Cairo stands for; accordingly the Mission statement was ratified unchanged.

### **Where is the Mission formally published?**

-staff and student handbooks/Planners/Link Books  
-in each classroom  
-in office spaces across the entire campus  
-on school-sanctioned social media  
-in the school magazine  
-in the school website  
-on official school reports  
-on the wall in central atrium areas

## **B. BELIEFS**

### **What are the school's Beliefs?**

#### **We believe in:**

- recognizing the value of each individual and his/her relationship with others;
- promoting international understanding and responsible citizenship in a multicultural context reflecting the best of Arab, Western and other world cultures;
- providing a supportive, inspiring environment which encourages learners to aim high and achieve their aspirations;
- creating opportunities for all to develop confidence, responsibility and integrity.

### **How and by whom were the school's Beliefs developed/reviewed/revised?**

The school's Beliefs statement was devised by the founding BODs in consultation with the founding Principal and the team of teachers who started the school in 1990.

Annual consideration is given to its relevance in a context which is constantly evolving yet we have concluded on each occasion that it still reflects our essential beliefs well. Senior school leaders, other faculty members and the senior most Student Council representatives are involved in the annual review.

### **How does the school ensure that its community of stakeholders understands and supports its Beliefs?**

Our Beliefs Statement is visible around campus and in school literature. 'Care, Challenge, Inspire' is something our students, parents, teachers and alumni are all familiar with - it is consciously and deliberately referred to in every parent information meeting and student

assembly. The language of our Beliefs statement features in report commentaries and individual meetings with students and/or parents.

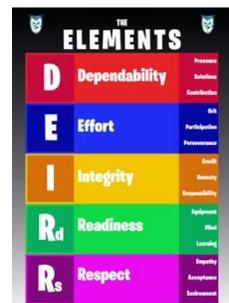

## C. PROFILE OF GRADUATES

**What is the school's Profile of Graduates?**

An MES Cairo graduate is:	An MES Cairo graduate can:	An MES Cairo graduate shows:
<ul style="list-style-type: none"> <li>• A leader</li> <li>• Confident</li> <li>• Articulate</li> <li>• Flexible</li> <li>• Pro-active</li> <li>• Reflective</li> <li>• Principled</li> <li>• Independent</li> <li>• Resourceful</li> <li>• Resilient</li> <li>• Inspired</li> <li>• Creative</li> <li>• Visionary</li> </ul>	<ul style="list-style-type: none"> <li>• Communicate fluently in the English language</li> <li>• Intelligently express their views</li> <li>• Problem solve</li> <li>• Lead by example</li> <li>• Recognize personal strengths and passions</li> <li>• Relate well to others</li> <li>• Take appropriate risks</li> <li>• Make a difference</li> </ul>	<ul style="list-style-type: none"> <li>• Integrity</li> <li>• Initiative</li> <li>• Empathy</li> <li>• Excellent interpersonal skills</li> <li>• Appreciation of individuals' rights and responsibilities</li> <li>• Cultural awareness</li> <li>• Respect for self and others</li> <li>• Global understanding</li> <li>• Commitment to lifelong learning</li> <li>• Understanding of the Egyptian culture and the Arabic language</li> </ul>

**How and by whom was the school's Profile of Graduates developed/reviewed/revise?**

The Graduate Profile was first devised in 2011. It was further developed and worked on during the 2016-2017 Academic Year by the Secondary Deans of Students and Assistant Heads. The reason for the development of the Elements, was because the Graduate Profile seemed daunting. It is also not embedded well throughout the curriculum per se. During the 2017-2018 and 2018-2019 academic years, we have furthered the use of the Graduate Profile by way of the Elements through the use of Performance Growth Points, in reflections sheets used during detentions or internal suspension, within our HRCF curriculum and in grade-level assemblies. In the Primary portion of the school, they use the 5 R's related to the Graduate Profile and transition students in Years 5 and 6 to the Graduate Profile prior to entering the Secondary school.

**How does the school ensure that everyone understands and supports its Profile of Graduates?**

Each Head of Department during their meetings with the Secondary Leadership team discuss how the department are using the Elements to support the Graduate Profile. Likewise, in Primary that is discussed in the Year Team Meetings. The SDA's are aware as the progress is recorded by each department/year group in the sectional plans that supports the Whole School Development Plan.

The language of our Graduate Profile is used in student assemblies and is featured prominently in Graduation speeches delivered by staff and students.

## THE PROFILE OF THE SCHOOL

The Profile of the School includes information and data that 1) describe the community(ies) the school serves and in which it exists, 2) help to develop an understanding of the school's Mission, and 3) describe the opportunities & challenges the school faces as it seeks to achieve its Mission.

### **Instructions:**

- 1. In Sections A, B, C of the self-study template, the school is asked to gather, analyze, and report information and data about the school and its community(ies). The information and data requested are intended to give the Planning Team a complete portrait of the current state of the school. This information and data will help the Planning Team as it determines which areas of student performance and organizational capacity should be addressed in the school's Plan for Growth and Improvement.***
- 2. If the school has in place information and data that are requested by the template but in a different format, the school is invited to insert those information and data sets in the appropriate sections of the template and delete the tables that are provided for reporting information and data.***

## A. THE COMMUNITY

**Provide a description of the community. Describe its history and major characteristics, including geographic location and socioeconomic and demographic makeup.**

Modern English School Cairo was established in 1990 and is a multi-national, co-educational school offering an international education for students from Foundation Stage 1 to university level entrance taught by international staff. Most of the students are Egyptian nationals, yet over 30 nationalities are represented in our records as many of our students are dual-passport holders. The student body is stable, with most students joining the school at Foundation Stage (3.5 years old) continuing through graduation. There are currently 1297 students in the Primary; in the Secondary there are 56 students enrolled in the IB program in DP 11, 489 in the British program, and 404 in the American program. Since the last MSA accreditation our enrollment has increased from 1215 to 2246.

Irrespective of grade/year level or section, all students who identify as 'Arab' are required to fulfill the Egyptian Ministry of Education requirements by taking the National Curriculum examinations for Arabic, Arabic Social Studies, and Religious Studies in addition to international curricula. The MOE curriculum is quality assured by our Managing Director. Performance in ministry examinations is excellent. Over the past 5 years, MES Cairo has maintained an average pass rate of 97.49% for the initial examination, with 100% pass rate obtained upon reexamination.

MES Cairo exercises a significant amount of autonomy from Ministry rules and regulations. Our Chair of the Board has the respect of key Ministry personnel and we are, more or less, allowed to operate without significant intervention from the government. They frequently refer to MES Cairo as an example of best practice for independent, international schools in Egypt. MES Cairo prides itself on the quality of education provided to the students; where barriers exist, we seek solutions in order to ensure the quality of teaching and learning.

Situated outside of central Cairo in a suburb known as Tagamoa Khamis, the school features a campus that houses both a Primary and a Secondary school. MES Cairo facilities include primary and secondary buildings that house the Learning Media Center, offices, classrooms, science labs, computer classrooms, visual and performing arts facilities, academic support services, and administration offices. The campus also includes a theater, design technology classrooms, senior students' common room, gymnasium, 2 covered swimming pools, a full outdoor track, and other athletic facilities.

The Chair of the Board and the Managing Director are full-time members of staff and are empowered by the Board of Directors (BOD) to make decisions autonomously. The BOD meets bi-monthly and reports annually to the Board of Trustees all of whom have a financial interest in the school; the majority are parents of current MES Cairo students and/or alumni.

The Whole School Principal (WSP) position drives the educational mission of MES Cairo. The WSP is key in leading and further developing the Whole School Development Plan (WSDP) and ensuring academic compliance. Further, the WSP is responsible for ensuring the school exceeds accepted academic accreditation standards through management of the Senior Leadership Team (SLT).

The Principal and Vice Principal for the American Program are responsible for supporting the ethos and achieving the aims of MES Cairo; line managing designated Heads of Department and Deans. They jointly taking responsibility for the welfare, conduct and progress of students, communicating with staff and guiding instruction and curriculum. This structure is replicated with similar roles of responsibility in the British Primary and Secondary sections.

Foundation Stage provides an excellent start for formal education. Students then progress to a curriculum based on the National Curriculum of England (KS1 and KS2). Having the expertise of certified French, PE, Music, Computing and Special Educational Needs teachers. A broad curriculum is offered within all three curricula areas in Secondary: British (Y7-12: KS3 followed by IGCSEs, then AS/A Levels), American Section (G7-12: Middle School followed by High School Diploma and Advanced Placement courses) and the IB Diploma Program (DP11-12). We have a full offering of elective courses with fully certified teachers in suitable learning environments. Irrespective of grade/year level or section, all students who identify as 'Arab'

are required to fulfill the Egyptian Ministry of Education requirements by taking the National Curriculum examinations for Arabic, Arabic Social Studies, and Religious Studies.

A diverse co-curricular program complements the whole school. In the secondary school, student representatives from all three sections are actively involved in Student Council, Model United Nations and NHS/NJHS. Students are also involved in drama/musical productions as well as national and international athletic and curricular competitions. The International Award is a popular initiative as are a variety of community service projects. The Primary School offers similar programs.

**Describe any changes in the community occurring over the last five years that have had an impact on the school. Indicate any changes that are expected to occur during the next five years.**

**Last Five Years:**

As Egypt is continuing to transition as a country since the revolution and in terms of country leadership, there has been a substantial increase in the number of our graduates who are applying for and taking offers at American, Canadian, British, and other European universities over the past 4 years. Traditionally, many elected to be educated within Egypt. This past academic year, 56% of our graduates attended universities outside of Egypt. MES Cairo Alumni are currently studying at top league universities including Cambridge, Oxford, Chicago, and Brown Universities. The success of our alumni serves to reassure stakeholders that a MES Cairo education has prepared them well for further study at top universities abroad. This extends not only to academic preparedness, but also socially, culturally and ethically; our graduates hold their own on a global platform. Certainly, we are very proud of their achievements and feel that our mission statement is reflected best in our graduates.

During the last accreditation, when looking ahead at the next 5 years, the focus was on providing social, emotional, and personal care as Egypt was transitioning from the Revolution. Personal safety and security were deemed to be a focus. While Egypt is still evolving, personal care and security would be considered similar to any large and heavily populated area in the world. We are still providing additional personal services to our teachers and have annual surveys for new and existing staff regarding what can be improved. The results of those surveys also rank extremely high on personal care the school provides each staff member when coming to work at MES Cairo. These surveys given to teachers each year and are reviewed in leadership team meeting with 'matters arising' informing our planning of the following year's staff induction program.

Recruitment can sometimes be an issue due to how Egypt is depicted in the media, MES Cairo has created a teacher certification program in conjunction with authorised UK partners. Individuals can become fully certificated/qualified teachers in this rigorous program. The school can then attract individuals who may have been teaching abroad without certification or for those entering the teaching field from practical fields.

**Next Five Years:**

None foreseen.

**Describe the major challenges currently faced by the community—social, economic, political.**

The negative depiction of Egypt in the media continues to be a challenge as far as recruitment is concerned. We have an extremely stable student population and wider community, but a rather transient teacher base. While we attract highly qualified staff and have a number that stay in excess of 5 years, a significant amount of time and effort is put into supporting new teacher cohorts. A thorough induction to the country and its culture is offered on arrival to help staff acclimatize to Egypt. Providing stability and upholding standards in a landscape of substantial change and occasional disorder within the country and region is a significant achievement. The quality of teaching and learning has been upheld for the benefit of students. Maintaining a clear sense of purpose and promoting resilience in times of difficulty has enabled students and teachers alike to overcome obstacles that many would find insurmountable. A key feature of that success has been our determined efforts to maintain a high caliber of staff. While recruitment efforts take significantly longer with an increased budget, the Board of Directors is fully invested in doing whatever it takes to locate and to hire excellent teachers.

Power and interruption of wifi services is something that is ever-present in the area that we work in. While the number of interruptions has been significantly lower, it still can interrupt communication within the school as well as the possibility of not being able to stream or access content temporarily. As a result, the school has many overlapping technical systems to reduce the duration/impact of such outages. Backup generators are used for specific systems (ie. separate generators for the servers, school heating/cooling systems, electricity, etc.). In addition, if internet connectivity is an issue, we do have two different service providers. If one is experiencing difficulty or an outage, the school can switch to the secondary system. Thus, allowing the intranet and communication among all staff to continue. While nothing can solve a rolling outage for an area, the remedies employed, and the plans moving forward are really about limiting the impact on students and the learning environments.

**List the major educational and cultural programs and facilities in the community that are available for use by the school and its students.**

<b>Program/Facility</b>
Learning Resource Center – Maadi, Cairo
British Council in Egypt
Amid-East Educational and Training Services
American University of Cairo – university library access
Local golf and gym clubs – for use of the facilities for students after school activities such as tennis, golf, spin class
Cambridge Assessment International Education
Various day and overnight trip facilities

## B. SCHOOL INFORMATION

### *Instructions:*

- 1. Collecting information and data that describe the school and its staff is important because the school needs these data and information to determine if it has the organizational capacity necessary to deliver the educational program and to produce the levels of student performance desired and expected by its community of stakeholders.*
- 2. It is understood that not all of the areas requested in this template will apply to all schools, nor will all schools have all of the data sets that are requested.*
- 3. Therefore, the school is expected to report the most current data and information for all areas that are applicable to the school and for which it has data. If data requested are not applicable or not available, note this fact in the appropriate areas.*
- 4. Also, if the data and information are available in a different format, the school may delete the format contained in this template and import the data into the Self-Study Document in its own format.*
- 5. If data are not available for areas that are applicable to the school, it is recommended that the school develops a plan to collect, analyze, and track those data, as they are important for determining if the school has the capacity to accomplish its mission.*

### B.1. HISTORY OF THE SCHOOL:

**Provide a brief history of the school. Include key milestones and developments in the life of the school.**

The school was founded in 1990 by a group of educators and educational leaders who had worked together in Kuwait. The school in Kuwait closed during the invasion, displacing the school's students and their families; a number of students were Egyptian and parental request led to the establishment of Modern English School Cairo. From 28 students on day one, to a roll of 2246 now, the reputation of MES Cairo has grown alongside student numbers.

Initially offering a British curriculum (EYFS to A Levels), the move to new school premises in 2000 led to capacity for the eventual development of an American High School Diploma curriculum. We introduced an American Middle School programme in Grades 7 and 8 in 2006 in order to best support student transition from one curriculum to another. The IB Diploma was added to our graduation pathway in 2005 and has become a viable option for our students seeking associated challenge.

MES Cairo is an avid and active member of various educational organisations and associations, both internationally and in Egypt. We are regarded as a legitimate, reputable and successful school within the broader community.

Beyond successful school accreditation processes with other awarding bodies (most recently British Schools' Overseas who determined MES Cairo to be 'outstanding' in all Standards during their visit in March 2019), we have a proven track record of excellence in terms of results, both tangible and less so. Our graduates are extraordinary young people who credit their MES Cairo education for their success at university and beyond.

<b>TOTALS</b>	1132	1009	1157	1032	1196	1050	1193	1058

**Explain any significant or unusual enrollment trends for this school.**

During the last Team Visit, we had only 2049 students across Primary and Secondary school. Currently, we have a total of 2246 students which is a 9% increase across the entire school,

15% increase in students in the Secondary, and we have more than doubled the size of the IB Program. As a result, we added a DP Coordinator position and the Whole School Principal now oversees the program. The overall increase in student population has impacted staffing, the procurement of rooms for classes, the care blocking/scheduling of classes, speciality classroom time is at a premium (PE facilities, science and computer science labs). While the majority of our students are host nationals, we have had some students fleeing unsafe domicile from Syria and Libya. More recently we have seen the return of higher than usual number of Egyptian families from UAE and Gulf Countries.

Curriculum choice for Secondary continues to be difficult to anticipate and we are yet to determine any reliable trend. Secondary role is stable, but option selection from year to year between British and American Sections continues to sway unpredictably. We have cohesive Secondary school structures, policies and practices in place to best accommodate student/parent preference, year by year.

#### B.4.b. Student Demographic Trends:

**Instruction:**

- **Complete the following tables to show changes in student demographics. Select the student characteristics most pertinent to your school (e.g. ethnic group, socioeconomic background, nationality, special needs populations, day/boarding, etc.).**
- **Duplicate the table below to report as many student characteristics as the school believes are important for understanding the makeup of the student population.**

**Explain any significant or unusual demographic trends for this school.**

Our school role is densely populated with Egyptian children; many of the non-Egyptian nationalities reflected above indicate children who are dual citizens and declare their 'other' nationality for purposes of school enrollment.

Religious identity is significant in Egypt. We provide MOE religious education accordingly.

There is no significant change in demographic - current roll demographics reflect what is typical for MES Cairo

Describe significant trends in the size of the staff that have had or may have an impact on the education program, provision of student services, personnel, facilities or finances.

MES Cairo benefits from local employment laws which stipulate that for every foreign work visa sponsored a company must employ 9 host-nationals. Because our BOD is committed to recruiting properly qualified, international teachers, our school is very generously staffed with ancillary, transportation, security and support colleagues etc.

#### B.4.d. Experience of The Staff:

**Instruction: In the table below, indicate the total years of experience members of the staff have in the job role in which they currently serve. Include years of service in the same role at other schools. Count each person only one time.**

**Describe significant trends in the experience of the staff that have had or may have an impact on the education program, provision of student services, personnel, facilities or finances.**

In 2011-2012, we had 58 members of the instructional staff that had 11 or more years of experience in their current position. Egypt has been a more challenging country to recruit teacher to since then. Competition has increased globally for teachers, the devaluation of the British Pound and the floating of the Egyptian Pound have had an impact on the instructional staff. As a result, the school has responded with revisions of salary schedules and strengthening the induction program for new staff. New teacher cohort meetings have been implemented across the school and mentorship of new teachers has been extended.

**B.4.e. Academic Preparation of The Professional Staff:**

*Instruction: In the table below, indicate the level of professional preparation in each category. Count each person only one time, indicating the highest level of professional preparation.*

**Describe significant trends in the academic preparation of the staff that have had or may have an impact on the education program, provision of student services, personnel, facilities or finances.**

All teaching staff must hold a recognised teaching qualification - that credential must be officially endorsed in the country it was obtained, and recognised in the UK or USA. UK teaching qualifications are more general than US equivalents; 5 colleagues in school are working on their teaching credential with us and have extensive monitoring, support and reduced teaching loads in order to fulfil their course requirements.

**B.4.f. Professional Certifications of the Professional Staff:**

*Instruction: In the table below, indicate the number of persons on the staff with each type of professional certifications noted.*

Describe significant trends in the professional certification of the staff that have had or may have an impact on the education program, provision of student services, personnel, facilities or finances.

All teaching staff must hold a recognised teaching qualification - that credential must be officially endorsed in the country it was obtained, and recognised in the UK or USA. UK teaching qualifications are more general than US equivalents, so it is not possible to translate these into the categories outlined above.

5 colleagues in school are working on their teaching credential with us and have extensive monitoring, support and reduced teaching loads in order to fulfil their course requirements.

**B.4.g. Staff Demographic Trends:**

*Instruction: In the table below, indicate the demographics of the staff. If you collect this data in a different way for example, by nationality, please amend the chart accordingly.*

FOR THE ACADEMIC YEAR:	20	18	to	20	19
------------------------	----	----	----	----	----

Race/Ethnicity	Percent of Staff in Current Year	Percent of Staff Two Years Ago
British	56%	57%
American	21%	18%
Canadian	3%	3%
Egyptian	12%	13%
Other:	8%	8%
<b>TOTAL</b>	<b>100%</b>	<b>100%</b>

Describe significant trends in the demographics of the staff that have had or may have an impact on the education program, provision of student services, personnel, facilities or finances.

Trends in international education and the evolution of quality off-shore, distance education teacher training programs have contributed to a change in staff demographics at MES Cairo.

We have been able to train highly capable, locally recruited colleagues, who we have then recruited into our teaching staff upon successful completion of their teaching certification.

#### B.4.h. Staff Mobility:

Indicate the number of each category below that were new hires in the year indicated.

**FOR THE ACADEMIC YEAR: 20 18 to 20 19**

	<b>Number New Hires Three Years Ago</b>	<b>Number New Hires Two Years Ago</b>	<b>Number New Hires One Year Ago</b>
<b>Administrative Staff</b>	2	0	1
<b>Instructional Staff</b>	32	42	57
<b>Student Services Staff</b>	3	0	2
<b>TOTAL</b>	36	42	60

Indicate the percentage of each category below of staff turnover in the year indicated.

	<b>Percent Changeover Three Years Ago</b>	<b>Percent Changeover Two Years Ago</b>	<b>Percent Changeover One Year Ago</b>
<b>Administrative Staff</b>	15%	0%	8%
<b>Instructional Staff</b>	18%	24%	34%
<b>Student Services Staff</b>	18%	0%	12%

**Describe significant trends in staff turnover that have had or may have an impact on the education program, provision of student services, personnel, facilities or finances.**

Historically, the average length of service for instructional staff has been 4 years [prior to 2012]. During the last self-study we noted that the average duration of service as MES is 2.2 years. Our current data reflects that the length of service is hovering around 2 years. While this also seems to be a trend in international schools, as stated earlier, the political impact on the value of currencies has remained constant. The school has revised the salary schedule, strengthened the school induction program for new staff, a strong professional development offering, hiring additional personnel to offset cover in the Secondary, continuing to offer free tuition to children of teachers have all assisted in ensuring the educational program, student services, facilities and finances have continued to be of sound quality.

## C. STUDENT PERFORMANCE

This profile of Student Performance includes the following information and data that describe the levels of student performance on assessments that are most respected by the members of the

school's community of stakeholders, valued by the school's professional staff, and/or required by the state or federal governments.

**Instructions:**

- 1. In this section, the school is asked to gather and report data describing its students' performance in a variety of areas that are normally used by the school's community of stakeholders to determine if the school is accomplishing its Mission.**
- 2. It is understood that not all of the areas of performance requested in this template will apply to all schools, nor will all schools have all of the data sets that are requested.**
- 3. Therefore, the school is expected to report the most current data for all areas that are applicable to the school and for which it has data. If data requested are not applicable or not available, note this fact in the appropriate areas.**
- 4. Also, if the data and information are available in a different format, the school may delete the format contained in this template and import the data into the Self-Study Document in its own format.**
- 5. If data are not available for areas that are applicable to the school, it is recommended that the school develops a plan to collect, analyze, and track those data, as they are important for determining if the school is making progress toward accomplishing its Mission.**

## **C.1 ACADEMIC PERFORMANCE DATA—PUBLIC SCHOOLS**

### **C.1.a. Student Performance Data**

**Instruction: Duplicate Section C.1.a for each state assessment. Section C.1.a is mandatory for all publicly funded schools.**

**Results of State Student Performance Assessments (for public schools): Not Applicable**

**Results of Assessments of Student Performance—All Schools  
(Standardized Assessments, SAT/Advanced Placement, International Baccalaureate, MAP testing, etc)**

**Instructions:**

- 1. Section C.1.b. is mandatory for all schools.**
- 2. The following table is provided as an example. Amend the table to fit the unique needs of the assessment data being reported.**
- 3. Duplicate Section C.1.b. for each assessment.**
- 4. In the table below, record the results of standardized academic assessments administered in the most recent academic year.**

**Provide a description of proposed improvements and/or corrective actions that need to be taken for students performing below standard. Include a description of actions that have been initiated or are formally planned.**

- Since the last inspection Classroom Monitor has been introduced throughout Primary. This allows teachers to identify gaps in learning quickly and effectively and allows for robust tracking of attainment and progress across the school.
- Interventions will be led by members of PLT and LDD staff in tandem to avoid duplication or repetition. By using the data from Classroom Monitor, shared monthly, it will ensure they are fluid and focused on the needs of the student.
- New ways to assess and gain evidence in reading are being introduced in Primary. This includes updated reading assessments, e-books and applications on the i-Pad such as 'See-Saw'.
- Students working at Greater Depth (above standard) within the expected standard is a focus for Primary Action Plans related to assessment and curriculum this year. CPD training and moderation sessions focused on these students have begun and have been planned throughout the year. After School Activities focusing on these students will also be set up.

- An assessment focus group has been set up for teachers across year groups. One of the key objectives will be to discuss ways to stretch higher achieving students and to develop assessment tools and resources to support this.
- Moderation sessions, which take place monthly, will ensure a regular focus is given to higher ability students and will focus on additional subjects alongside writing.
- The introduction of CAT testing into Key Stage 1 and 2 is identifying students who, alongside focused support, have the potential to achieve well.
- In Upper Key Stage 2, there will be a focus on narrowing the gender gap in attainment for the year ahead, particularly in reading and writing. High interest topics have been introduced to engage all students in their learning along with the purchase of books aimed at encouraging boys to read more regularly at their level.

-ESL classes for students performing below the standard level has been moved into the morning homeroom sessions and through the Homeroom Community Forum times.  
 -Creation of a systematic process for student groupings: Middle School cohorting of students has been revised. The process is as follows:

MAP Scores				Core Subject Grades				Attitudes to Learning				Teacher Recommendations
Math	Language	Reading	Lexile	Math	English	Science	Social Studies	Readiness	Respect	Dependability	Effort	Recommendation worth 10%
MAP worth 35%				Core subject grades worth 30%				Average from Teachers 25%				
MAP	Score	Worth		0-4 GPA	Grade	%	GPA					
	160-199	1			A	90%	4					
	200-210	2			B	80%	3					
	211-219	3			C	70%	2					
	220-229	4			D	60%	1					
	230-260	5			F	0-59%	0					

The development of this process took two years of revisions and a dedication of time by our Head of LDD, Dean of Students for Middle School, and review and input from the Vice Principal and Principal. The differentiation levels are much smaller; all students are more accurately placed, English and Math course outlines and pacing have been revised based upon student needs in each cohort.  
 We have invested more training and workshops for teachers and parents with regard to the data that MAP provides. The Middle School, in particular, uses Read Theory and Middle School through High School uses NoRedInk to bolster students no matter where they are in the range of development. Grades 7 and 8 have incorporated the use of Mappers that links to the Khan Academy to support students in Math.  
 LDD support, inclusion services, and resources have been shifted into the English, Math, and Science courses across grade 7, 8, and 9.

We have moved the SAT Prep course from the after school program to a formalized instructional offering in the grade 10 [English Prep] and grade 11 [Math Prep] curriculum offered in terms 1 and 2 during homeroom and through the HRCF time. All students in grades 10 and 11 load their PSAT code into the College Board website. A personalized study program is offered to each student and links directly to the Khan Academy lessons. Those lessons are completed by students during the time mentioned above. For Grade 10 homerooms we have purposely scheduled the English teachers and the Grade 11 homeroom teachers are Math teachers. In addition to the Khan Academy activities, each Head of Department has formalized the SAT curriculum outline provided in the evidence.

**Provide a description of proposed improvements and/or corrective actions that need to be taken for students performing below standard. Include a description of actions that have been initiated or are formally planned.**

We have formalized the PSAT program and it is now being offered in two different grade levels as mentioned above moving English into Grade 10 and Math into Grade 11 [instead of offering the full course in grade 12]. Because our students are second language learners we have historically scored lower in writing. In this area we have made significant improvements because of the following changes in both protocol and practice in the English department: improved text selections for use by grade level for literature circles, shared writing and analysis rubrics used across the department, use of the OEA to write effective paragraphs shared by all teachers, shared OEA rubric, use of ReadTheory, CommonLit, and NewsELA for leveled readings and activities.

Our intentions are to move Algebra 1 in grade 8, which we are in the process of doing. Currently, 2 of our three grade 8 cohorts are enrolled in Algebra 1 based upon student readiness. Through moving the Algebra 1 in grade 8, students will have an opportunity to complete Geometry and Algebra 2 prior to taking both the PSAT Math course and their initial attempt at the SAT.

**Provide a description of proposed improvements and/or corrective actions that need to be taken for students performing below standard. Include a description of actions that have been initiated or are formally planned.**

-Additional seminar time per course is offered to students outside of the regular school schedule for each course;  
 -Use of the new and improved resources and curriculum outlines offered by AP;  
 -AP Teacher and Head of Department meetings to revise curriculum guides to reflect the areas needed to improve from the previous academic year [based upon the detailed score data provided by the College Board];  
 -Training for AP teachers;  
 \*We still like to include students who would like to be challenged by taking an AP course. We do have prerequisites that need to be met per course as per the Program of Studies.  
 -Informational assemblies offered to students beginning in grade 8.

#### **IBDP**

#### **CAT4 predictive testing and Value-added achievement**

We have been testing all IB entrants using the CAT4 with IB Diploma predictors since February 2018, with the following data generated:

#### **May 2018**

Scores most likely to achieve according to CAT4

On average our students have surpassed their expected overall scores by 5 points

## May 2019

On average our students have surpassed their expected overall scores by 2.41 points CAT 4 with results summary here:

[https://docs.google.com/spreadsheets/d/1t3yXDwT1630IYgO\\_SvuWfuSuiWCaRc5fvqoTZySlyZQ/edit?usp=sharing](https://docs.google.com/spreadsheets/d/1t3yXDwT1630IYgO_SvuWfuSuiWCaRc5fvqoTZySlyZQ/edit?usp=sharing) (3)

Although the above is pleasing, it is lower than 2018 year - partly due to an unprecedented growth in cohort. IB teachers are committed to raising the score by adhering to the following strategies

## May 2020 and 2021

We predict that our students will surpass their expected overall scores by an average of 4-5 points

### Strategies for improvement in 2019-20 include the following:

- Whole section focus on Literacy across the curriculum starting with a review of the school Language Policy and more rigorous implementations of the strategies outlined in the appendices of our policy (1)

<https://drive.google.com/drive/u/0/search?q=language%20policy>

- Closer monitoring and target-setting in several subject areas
- Target students who are under-achieving according to CAT4 predictive testing - see evidence from several subject areas - all departments submit individual student strategies - (2) [https://drive.google.com/drive/u/0/folders/1c2qt6bAroooVMRNzEMGw\\_EI-O1g6\\_rrm](https://drive.google.com/drive/u/0/folders/1c2qt6bAroooVMRNzEMGw_EI-O1g6_rrm)

- Sharing good practice in Dept meetings and peer observations

- Increased moderation of key assessment pieces

- Increase focus on revision and examination techniques

- New coursework submission policy and parents in partnership re coursework deadlines (letter September 2019) (4)

- Students will regularly receive homework assignments consisting of past paper questions. Past paper questions will also be used for class reviews and tests.

- Focus on higher levels in critical thinking and ownership of work - drive to instill independent critical thinking more this year, and encourage student autonomy by creating more problem-solving and experiment driven opportunities

- To strengthen emphasis of TOK, ATT/ATL the IB Learner Profile within our subject curriculum delivery (e.g. through reflection and evaluation) and teacher training.

### To be aware of and plan for earlier...

-We are this year focussing on *literacy* skills in all subjects across the curriculum - as embedded in our IB Approaches to Teaching and Learning.

CAT4 is curriculum-independent and its reports are based on national benchmarks, informing and validating your decision-making, helping judgement when staff need to provide extra support or set more challenging targets. CAT 4 is a diagnostic test which enables us to ensure that CAT4's verbal, non-verbal, quantitative and spatial profiles together with indicators inform target-setting for national assessments, e.g IGCSEs, and gives guidance on how to improve the results of mid-performing students who can so easily be overlooked. CAT 4 is benchmarks against national performance and include KS2, GCSE and A-level indicators.

Students who require LDD support are identified and are provided with IEPs that are shared with teaching staff. Group reports for cohorts are available as well as individual reports which give further insight into students needs.

British - All departments complete examination analysis after the examination results are available. The results are checked against CAT data to show value added and to highlight areas for improvement. Areas for improvement are placed into the Departmental Development plans.

Students who perform below the standard have the opportunity to resit external examinations. Students on the LDD register have IEPs an individualised pathways are discussed with the LDD co-ordinator and appropriate members of staff.

CAT data is also used in conjunction with PASS data for students.

**Strategies for improvement in 2019-20 include the following:**

Closer monitoring and target-setting in several subject areas

LDD to work with Departments to ensure students who are under-achieving according to CAT4 predictive testing are identified and IEPs are referred to by staff

Sharing good practice in Dept meetings and peer observation

Moderation of key assessment pieces in the English Department

Earlier focus on coursework in Art and DDesign and Technology

# THE PROFILE OF ORGANIZATIONAL CAPACITY

The Profile of Organizational Capacity provides information and data that portray the school's capacity to produce the levels of student performance the school and its community of stakeholders desire and expect. The profile consists of the results of a self-assessment of the school's adherence to the 12 Middle States Standards for Accreditation.

## Method(s) Used to Conduct the Self-Assessment of Adherence to the Standards for Accreditation

**Instruction: Indicate by entering an "X" in the block provided the method(s) the school used to conduct its self-assessment of the degree to which it meets the Standards for Accreditation.**

### A. By Standards Surveys

x	YES		NO	The self-assessment was conducted using the surveys provided by the Middle States Association.

\*Please note that this is a new SDA for the 2019-20 school year.

If the school used a single committee to conduct the self-assessment, explain below how all of the school’s community of stakeholders were given opportunities to provide input into the self-assessment.

NA - Please note that ALL results reported by level per standard are comprised of two separate scores:  
 All Stakeholders = survey responses from Parents, Teachers, School Administration, and Students  
 Self-Audit [SA] = this is the audit completed by each SDA upon reflection of the standards and how they relate to the work completed

**Instructions:**

1. *The protocol requires that the school provides a self-assessment of whether it meets each of the 12 Standards and an average rating for each Indicator of Quality. The average rating should reflect a composite of the ratings provided by the school’s community of stakeholders.*
2. *You may delete from the Self-Study Document any sets of Indicators that do not apply to your school. For example, if you are an independent school that is not governed by a larger system of schools, you may delete the “Indicators for schools in public school districts, archdiocesan/diocesan systems, and other school organizations with a central office staff.”*

The school must meet this Standard for Accreditation to be granted “Accreditation” by the Middle States Association. The Indicators of Quality for the Standard identify the types of evidence that, when taken together, indicate whether the school meets the Standard. The school may indicate other types of evidence particular to the school in the “Other” section provided below. Rate the degree to which the school meets each Indicator by using the following scale:

<b>Rating of Adherence to the Indicator</b>	
<b>1. Does Not Meet</b>	The evidence indicates the school <b>DOES NOT MEET</b> the expectations of this Indicator.
<b>2. Partially Meets/In Need of Improvement</b>	The evidence indicates that the school <b>PARTIALLY MEETS</b> the expectations of this Indicator and is <b>IN NEED OF IMPROVEMENT</b> .
<b>3. Meets</b>	The evidence indicates the school <b>MEETS</b> the expectations of this Indicator.
<b>4. Exceeds</b>	The evidence indicates the school <b>EXCEEDS</b> the expectations of this Indicator.

**Instructions:**

1. *Report the results of the school’s self-assessment of the degree to which the school meets this Standard and its Indicators of Quality in the tables below.*
2. *The school may choose to report the results of the self-assessment by providing an average rating from all stakeholder groups, or it may report the results by stakeholder sub-groups (e.g., students, parents, staff, etc.).*

Please note that ALL results reported by level per standard are comprised of two separate scores:

\*All Stakeholders = survey responses from Parents, Teachers, School Administration, and Students

\*Self-Audit [SA] = this is the audit completed by each SDA upon reflection of the standards and how they relate to the work completed

# THE MISSION STANDARD FOR ACCREDITATION

(Indicators 1.1-1.6)

## A. ISSUES Related to This Standard

*Not applicable in this section. See The School's Mission, Beliefs, and Profile of Graduates*

## B. Self-Assessment of Adherence to the INDICATORS OF QUALITY

### THE MISSION STANDARD FOR ACCREDITATION

**The Standard:** The school has a Mission that conveys clearly and concisely the school's vision of a preferred future for the school's students and its expectations for student learning. The Mission is consistent with ethical norms and demonstrates respect for persons of all races, creeds, and cultures. The Mission serves as the basis for daily operational and instructional decision-making as well as strategic planning. It is developed using a process that considers input by appropriate stakeholders of the school and is aligned with the needs of the community(ies) the school serves.

#### Indicators of Quality for all schools -

Stakeholder [students, parents, staff, administrators] numbers are listed first and represents a percentage;

School Advisories, and their representation, listed in the color coded chart in the section entitled *Profile of Organizational Capacity*, represents the second number in the chart as a percentage.

<b><i>The school's statement of mission:</i></b>						
1.1	Clearly aligned with the school's beliefs and Profile of the Graduate.	1	6	50 20	39 80	5
1.2	Communicated widely, understood and supported by the students, their families, and (if appropriate) the school's community of stakeholders.	0	4	41 20	50 80	6
1.3	Developed using a process that considered input by appropriate stakeholders of the school.	0	3	77 20	12 80	8
1.4	Reviewed periodically to determine its effectiveness in communicating the school's purposes and vision.	0	3	41	46 100	11

#### Indicators of Quality for faith-based schools<sup>12</sup>

x	<b>These Indicators do not apply to our school.</b>
---	---

<sup>12</sup> The use of the Faith-Based Indicators for this and the other Standards for Accreditation by Catholic and other faith-based schools is voluntary and not required, unless their use is directed by the head of a parent school system such as a Diocesan/Archdiocesan or a similar system of schools. The Faith-Based Indicators allow faith-based schools, if they desire, to include in their self-study and accreditation process Indicators of Quality that address unique characteristics of and expectations for schools whose Mission and educational program are defined wholly or in part by their particular faith.

**Stakeholders' comments to support the ratings:**

***Instructions:***

- 1. In the space below, list the stakeholders' comments regarding the school's adherence to this Standard and its Indicators of Quality. The school may list all comments made by stakeholders, or it may organize the comments by type and report only those comments that are made by a number of stakeholders.***

*Instruction: Based on the total self-assessment for this Standard and its Indicators of Quality, respond to the following requirements that will inform the school's planning for growth and improvement.*

**List the school’s significant strengths in meeting the Mission Standard.**

Strong awareness of the Mission statement in action in Primary through the use of The Golden Rules and 5Rs, which are based in many of the skills that are included in the Graduate Profile. Parents in Primary are also aware of these. Primary students also introduced to the Graduate Profile and thereby aware and prepared for the more formal language of the Graduate Profile when they transition into secondary. In Secondary the emphasis continues and has been improved by the implementation of the ELEMENTs to actively teach soft skills that support effective leadership

**List the school’s significant areas in need of improvement in meeting the Mission Standard.**

None

Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to Mission that should be included in the action plan in the Plan for Growth and Improvement.

Continue to embed the ELEMENTs and to work across Primary and Secondary to ensure that the Mission statement continues to be evident in all areas of students' educational experience with a seamless transition from Primary to Secondary, whether American or British.

## B. Self-Assessment of Adherence to the INDICATORS OF QUALITY

### SCHOOL IMPROVEMENT PLANNING STANDARD FOR ACCREDITATION

**The Standard:** The school plans strategically and continuously to grow and improve its students’ performance and the school’s capacity to produce the levels of student performance desired and expected by its community of stakeholders. The school’s strategic plan is aligned with and supports achievement of its Mission. The school uses a collaborative process to develop and implement its strategic plan for growth and improvement and ensures that the plan includes professional development activities the staff needs to implement the plan and achieve its goals.

#### Indicators of Quality for all schools

Stakeholder [students, parents, staff, administrators] numbers are listed first and represents a percentage;

School Advisories, and their representation, listed in the color coded chart in the section entitled *Profile of Organizational Capacity*, represents the second number in the chart as a percentage.

Stakeholders' comments to support the ratings:

**Instructions:**

1. *In the space below, list the stakeholders' comments regarding the school's adherence to this Standard and its Indicators of Quality. The school may list all comments made by stakeholders, or it may organize the comments by type and report only those comments that are made by a number of stakeholders.*
2. *If the self-assessment was conducted using surveymonkey.com, the school may copy into the space above the results obtained for this Standard as they are reported on surveymonkey.com.*

<b>Teachers &amp; Administrators</b>	<p>Development planning occurs annually across the school.</p> <p>The school has working parties and groups which monitor the above.</p> <p>The SDAs are clear evidence of collaborative, systematic school development planning that involves a wide representation of stakeholders.</p> <p>There is always reflection on any grades achieved by students in both external and local examinations to modify strategy going forward.</p> <p>Reflection on grades</p> <p>Progress is well planned, shared and review</p>

<b>Students</b>	<p><i>The school always try and succeed to provide us with the best educational resources every year. They care about what's best for us and ask us for our honest opinions and how the school can improve as a whole. Most of the minor changes are effective and they work progressively on the long term changes. The school provides all sorts of assistance for students in need or students who are having a hard time learning. The school exceeds the standard.</i></p> <p><i>During my time in MES, the teachers have always pushed us to our limits, trying to help us know what we aspire to become. They always have meetings (called the IGP meetings) where they discuss with us our plans for the future and help us take the courses we need to get into the school we dream to go to.</i></p> <p><i>As the school grows and more people join and many others graduate, the level of education it presents the students increases. This is because of the wide range of teachers that come from all different places and backgrounds. The wide variety of teachers also allows students to experience talking to people who come from different cultures and background, make them more well rounded and better prepared. This also ties into the schools ability to prepare its students for a life after graduation.</i></p>

<b>Parents &amp; Community Stakeholders</b>	<p>I would appreciate if school tuitions are announced earlier in the year, so as to give parents the opportunity to decide whether they will be able to continue paying or would rather check other schools. Knowing that school registration starts on September.</p> <p>The school feels very secure.</p>

**D. Implications for PLANNING**

*Instruction: Based on the total self-assessment for this Standard and its Indicators of Quality, respond to the following requirements that will inform the school's planning for growth and improvement.*

List the school’s significant strengths in meeting the School Improvement Planning Standard.

<p>Input from the teachers at the end of each academic year is collected via maintenance and space-related requests. Those are taken and completed during the summer months when teachers are on break. At the onset of the year during staff meetings, those changes are conveyed to the staff along with any that could be honored along with the rationale. Annual school development plans are continually in place and reviewed throughout the academic year. Plans for the school are reflective of student needs and are data reflective.</p>
--

List the school’s significant areas in need of improvement in meeting the School Improvement Planning Standard.

With regard to building additional facilities and the regulations surrounding school fees and tuition, the school is heavily regulated by local authorities who have the ability to change agreed upon plans at their discretion. Oftentimes, tuition regulations are not announced until very close to the beginning of international school year.

**Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to school improvement planning that should be included in the action plan in the Plan for Growth and Improvement.**

None foreseen.

## B. Self-Assessment of Adherence to the INDICATORS OF QUALITY

### FINANCES STANDARD FOR ACCREDITATION

**The Standard:** The school has financial resources that are sufficient to provide its students with the educational program defined in the school’s Mission and strategic plan. Financial resources are stable, and indications are they will continue to be stable for the foreseeable future. The school uses business practices that are ethical and follow accepted budgeting and accounting principles. The practices promote confidence in the school’s ability to manage its fiscal and material resources in a responsible manner. The school dedicates its financial resources to implementing its educational program, services, activities, and operations.

<b>Students</b>	<p><i>The school is very good at providing the students with sufficient financial resources in order for students to have an excellent educational experience. For example, the school provides the IT with Apple laptops so students can borrow them in case if their laptops are not working for a while.</i></p> <p><i>The school provides a well structured and safe building for students, as well as, the materials and books the students need. Moreover, the school provides good quality wifi, lighting, chairs, tables, buses, etc.</i></p> <p><i>Emails are sent to the parents explaining what needs to be payed by what date. if the parents need more information they could come to school and go to accounts to get all the information needed.</i></p>
<b>Parents &amp; Community Stakeholders</b>	<p>Excellent systems in place for emergency situations are practiced with children. Effective transportation is provided throughout Cairo.</p> <p>The facilities and space is extremely adequate for the educational program. The slides and ride-ons are excellent for my children. However, I am a bit concerned about the space my son will get to play football, basketball and run around with his friends when he moves onto Year 2 and into high school.</p> <p>The space and facilities for FS students are outstanding. ### D. Implications for PLANNING

*Instruction: Based on the total self-assessment for this Standard and its Indicators of Quality, respond to the following requirements that will inform the school's planning for growth and improvement.*

**List the school's significant strengths in meeting the Finances Standard.**

Thorough and strategic management of the school's finances continues to be a strength, even during turbulent times. The school has experts in positions of responsibility overseeing routine funds management and forecasting future challenges. Conservatism is the approach adopted when it comes to spending, with substantial contingencies in place in case of need. Yet, there is a healthy expendable budget to support resources for teaching and learning, maintain facilities and remunerate staff and support their professional development.

Recent history in Egypt has tested our financial security; we have overcome challenges such as tight restriction on accessibility of foreign currency, MOE restriction on fee increase alongside substantial foreign exchange volatility etc - this is a reflection of the healthy contingency budget maintained by financial controllers, and their expert ability to forward plan for and manage under all circumstances.

**List the school's significant areas in need of improvement in meeting the Finances Standard.**

Continued carefully management and strategic planning.

**Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to finances that should be included in the action plan in the Plan for Growth and Improvement.**

None - future priorities can be discussed during the team visit.

### C. Self-Assessment of Adherence to the STANDARD FOR ACCREDITATION

**Instruction:** After a rating has been assigned for each of the Indicators of Quality and after considering those ratings in the aggregate, make a determination whether, based on the school community’s self-assessment, the school meets or does not meet this Standard for Accreditation.

x	Our self-assessment is that our school <b>MEETS</b> this Standard for Accreditation.
	Our self-assessment is that our school <b>DOES NOT MEET</b> this Standard for Accreditation for the following reason(s):

### D. Implications for PLANNING

**Instruction:** Based on the total self-assessment for this Standard and its Indicators of Quality, respond to the following requirements that will inform the school's planning for growth and improvement.

List the school’s significant strengths in meeting the Facilities Standard.

Creation of multi-functional areas of the school that can be used for a wide variety of activities including shared classroom spaces in Secondary.  
 The Primary layout of the facilities and pod areas well organized and can be used for flexible learning options to enhance the educational program.  
 Providing healthcare services on campus for our students and staff is a strength.  
 The teachers, school leaders, our Managing Director and Chair of the board are in constant reflection regarding school safety in all aspects. Constant vigilance to the health and safety for our students is paramount. Specialist areas are plentiful across the campus.

List the school’s significant areas in need of improvement in meeting the Facilities Standard.

None foreseen.

Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to facilities that should be included in the action plan in the Plan for Growth and Improvement.

Continue to review facility needs versus student population.

### SCHOOL ORGANIZATION AND STAFF STANDARD FOR ACCREDITATION

**The Standard:** The school’s organization facilitates achievement of its purposes and core values as expressed in its Mission and successful implementation of its educational program, services, and activities. Members of the administrative, instructional, and support staffs are qualified, competent, and sufficient in number to provide a high quality educational experience as defined by the school’s Mission. Staff members possess the qualifications required by the civil authority in which the institution operates to administer and teach the program(s) to which they are assigned. Staff members are evaluated regularly based on clear expectations for performance and are provided with professional development experiences that address areas in which staff members need to grow and/or improve. The school’s leaders and staff demonstrate collegial and collaborative relationships.

## D. Implications for PLANNING

*Instruction: Based on the total self-assessment for this Standard and its Indicators of Quality, respond to the following requirements that will inform the school's planning for growth and improvement.*

List the school's significant strengths in meeting the School Organization and Staff Standard.

The school provides a well thought out table of school organization along with specific job responsibilities with defined reporting relationships. Job descriptions for each position in the school is clear to that specific role. Across the school there is a uniform way to complete teacher observations with reflective feedback [professional development portfolio]; feedback and reflections are tailored to the needs of instructors and reviewed throughout the year. Students, teachers, and parents feel they are safe while at school. A thorough Child Protection Policy along with designated Child Protection Officers across campus. Guidelines for data protection follow the regulations set forth by the US and UK regulations. A concerted effort to provide continual professional development geared to our specific school community is in place. A new program that allows teachers to seek their UK qualification is now supported by the school in conjunction with a relationship with a UK University.

List the school's significant areas in need of improvement in meeting the School Organization and Staff Standard.

None noted.

Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to school organization and staff that should be included in the action plan in the Plan for Growth and Improvement.

Continue to survey staff and review of the educational program to afford opportunities for all staff. We are working on trying to find a cost-effective program for staff wishing to seek American certification tied to a single American university.

Drills are conducted regularly to ensure all staff members and students are aware of what to do in any emergency situation.</p> <p>To the extent I have knowledge of the processes, which do not always directly involve a faculty member, I would state that our school does meet this standard.</p> <p>The school has systems in place to keep pupils and staff in school safe and where incidents happen, there is a clear system that is there to take care of pupils and staff, including an on site doctor and healthcare professionals. There is a system that excludes unwelcome people.</p> <p>Health provision and safety exceeds expectations.</p>
<b>Support Staff</b>	
<b>Students</b>	<p>The school provides all sources of safety. We have many practice drills in any case of emergency. The doctors they have are well-trained and always know how to deal with any accidents and illnesses.</p> <p>The school has regular fire drills, earthquake drills, and lockdown drills, which are taken very seriously in order to ensure the safety of the students at all times. The school canteen, as well, including all healthy food options that are healthy and clean.</p> <p>Our school is a very understanding school. When a student is ill, the school understands, but they require a note from a doctor outside of school, which is justifiable. Also, in our school we practice many drills (like fire drills and earthquake drills) and the school always prepares us for them. The school also provides us with all the medical attention we need. Overall, our school meets the standard.</p>

**Instruction:** Based on the total self-assessment for this Standard and its Indicators of Quality, respond to the following requirements that will inform the school's planning for growth and improvement.

List the school's significant strengths in meeting the Health and Safety Standard.

Since the last accreditation, the school ensured that the canteens offered healthy food options for all students. Regulations for packed lunches for students are the same. Parents, students, and staff feel that our school has clear plans to handle any crisis situation that may arise. All drills are practiced by students and staff and repeated if not satisfactorily completed. Outcomes of drills are commonly featured during leadership meetings across the school to ensure that we remedy any areas in need of improvement. The school provides water safety classes to all PE teachers by an outside provider.

List the school's significant areas in need of improvement in meeting the Health and Safety Standard.

None noted.

Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to health and safety that should be included in the action plan in the Plan for Growth and Improvement.

Increase the number of first responders in the school to support the clinic team.

## E. EVIDENCE to Support the Assessment of This Standard

**Instructions:**

1. The evidence listed in the table below, where applicable, should be referred to in the self-assessment process. Please note that some listed materials may overlap with those identified in another chapter.
2. The evidence listed in the table below, where applicable, is to be provided to the Visiting Team in its workroom during the Team's visit.

- 3. Indicate by checking all appropriate boxes the types of evidence used by the school in its self-assessment of this standard.**
- 4. Add any types of evidence that can support the school's adherence to this Standard but not included on the list in the spaces provided.**

### SUMMARY OF THE EDUCATIONAL PROGRAM:

**Instructions:**

1. *In the table below, indicate all of the curriculum areas that comprise the school's educational program.*
2. *Indicate the age groups/grade levels in which the curriculum area is taught by entering the total number of hours devoted to instruction in each curriculum area per academic year or per semester.*
3. *Add/delete rows as needed.*

**Describe the school's policy/procedure for developing, reviewing, and revising the curriculum areas in the school's educational program.** Details for each question listed below can be found in the Teaching and Learning Policies for Primary and Secondary found in Standard 1 evidence folder.

In the Secondary, each sectional leader meets with Heads of Department to determine the specific curricular areas and the needs to revision. Requirements to local universities as well

as those abroad are taken into consideration for course offerings and grade/year level appropriate placement.

In the Primary Section, there are separate policies for all areas of the Curriculum and Foundation Stage as well as general policies such as: teaching and learning; assessment; displays etc. The Primary Leadership Team (PLT) completes a thorough cycle of reviewing policies, which includes a timeline for regular updates to existing policies to ensure high quality provision is in place.

**Describe the school's policy/procedure for ensuring that the curriculum areas in the school's educational program are aligned vertically and horizontally.**

Vertical and horizontal alignment is a part of the Scope and Sequence/Schemes of Work documents found in the Secondary.

In Primary, our curriculum provision is designed to advance understanding, gradually throughout a key stage. Lessons are part of the process of learning with many lessons taking place over several days or even weeks until a student is showing the required degree of understanding. Many lessons will involve multiple learning objectives, some of which may be encountered for the first time whilst others are being revised in a new context. Progress is defined as the widening and deepening of essential knowledge, skills, understanding and behaviour. This means that students experience the same content over and over again, each time in a richer and more challenging context, thus deepening their understanding. Students are given increasingly challenging activities at each stage of development.

**Describe the school's policy/procedure for developing, reviewing, and revising curriculum guides for the curriculum areas in the school's educational program.**

Curriculum guides are reviewed annually as a leadership team, by the Heads of Department with their line manager, and then within the department. Revisions are then carried out throughout the year with proposals to go into effect during the next academic year. Scope and Sequence/Schemes of work and course syllabi are then altered to reflect those changes. The AP course offerings and course outlines are taken from the suggested guidelines set forth by the College Board. Specific pacing is up to the discretion of the teacher with approval from the Head of Department.

Within Primary, teachers work from long-term overview plans which are put in place by the Curriculum Deputy Heads and reviewed annually. In Maths, the medium term objective plans are reviewed each year by the Deputy Heads in consultation with class teachers and Year Team Leaders. Other subject medium term plans and weekly plans are completed in year group teams and annotated to personalise and meet the needs of the class.

**Describe how and in which curriculum areas students receive instruction for developing critical thinking, reasoning, problem-solving, and study skills.**

Critical thinking, problem-solving, study skills among other soft skills are woven throughout the curricular areas. Opportunities for students to reflect upon their own work and to complete

discovery learning activities are plentiful. Activities within classes for collaborative learning experiences are specifically planned for. Projects, homework, and other independent learning tasks are completed and are reflected throughout. Best practices in study skills and study resources are also provided by the Learning Development Department offered to teachers and students alike.

**Describe how and in which curriculum areas students receive instruction in the effective uses of technology for learning and opportunities to apply that knowledge.**

Workshops for parents and students are provided for the collaborative tools used in association with Google Classroom and digital responsibilities. During technology classes in both Primary and KS3 and Middle School, students are exposed to a variety of technologies to assist them in achieving their learning goals. It is key in those early years, that time is dedicated both in class and in assemblies about digital citizenship and personal responsibility. Those ideas are also reflected in the school Acceptable Use Policy and published to students in their planners or in Google Classrooms. Students are only permitted to have access to the school domain if the AUP has been signed by both the parent and student. These documents are housed in the student file. Within core classes, students are exposed to a number of online subscriptions and computer applications [see resource list] to enhance their learning experiences. For some projects, students are then given an opportunity to select the technological tool they prefer to use to complete the assignment building in student choice.

**Describe how and in which curriculum areas students are provided with opportunities to develop social skills such as self-control, working constructively in a group, accepting individual and group responsibility, etc.**

The consistent application of the use of the 5 R's and the Elements are woven throughout the curriculum offerings as well as through the Homeroom Community Forum program. Students can earn merits and can level up in programs like Classcraft and Class Dojo. The focus on restorative practices in classes and through interactions with Assistant Heads and Deans of Students drawing attention to positive behaviors and allowing students reflective time when poor choices are made. The MES Learner Profile shared with new colleagues has also been created and best practices for our learners are shared throughout Primary and Secondary. See excerpt:

**Describe the school's policy/procedure for selecting, evaluating, and reviewing instructional materials for the curriculum areas in the school's educational program.**

Heads of Department and Team Leaders are required to inventory all resources per year or department beginning in January of each academic year. The needs are then assessed and brought forward in the relevant sections prior to the release of budgets in February. During the budget process, the relevant teams are brought together to discuss their budget needs for the next academic year that includes CPD [Continuing Professional Development] requests. Those are then formally submitted for review by each Section Principal/Head. Once approved, they are then transferred for final review to our School Director, formally our Whole School Principal, and submitted to accounts for procurement.

**Describe the school's policy/procedure for identifying and addressing different student learning styles for the curriculum areas in the school's educational program.**

As per the Primary Teaching and Learning Policy found in the Standard 1 evidence file: Differentiation is expected, teachers annotate their planning taking into account individual needs including any information from IEPs.

Teachers are encouraged to be creative in the planning of activities, the plans should contain information about the tasks to be set, the resources needed and the assessment of the work. Lessons are evaluated so that they can be modified to inform future teaching and improve learning.

As per the Secondary Teaching and Learning Policy found in the Standard 1 evidence file:

**The Learning Experience**

**Quality Teaching**

- Setting high academic expectations
- Planning that ensures academic achievement for all, including provisions for more able children and children with needs
- Structuring and delivering lessons
- Engaging students in lessons
- Creating a strong classroom culture
- Setting and maintaining high behavioral expectations
- Building character and trust
- Assessment is persistent, authentic, transparent, and never punitive
- Feedback is timely and focused

**Describe the school's policy/procedure for identifying students with special needs (gifted, ESL, special education, etc.) and how the curriculum areas are modified for these students.**

Students can be identified by parents, student, or staff through the reporting procedure in both the Secondary and Primary sections. If a special need is suspected, students are placed on the Student At Risk List and educational testing is requested or performed by the school. Since all of our students are second language learners, all students take an exam at the end of year 6 to determine the extent of their language development needs. In Secondary, students are provided additional support from the LDD department and are afforded the opportunity to take

an ESL course to support their further development. Accommodations, as per the educational plan, are then provided in classes and during high stakes testing that take on multiple forms. Student may receive the following accommodations: use of scribe, additional time, small group instruction, small group or individual testing, reduction of choices for multiple choice distractors, use of colored pens, highlighters or colored overlays, magnifying devices, and the use of a keyboard, laptop, and/or tablet during classes and testing sessions, inclusion model of teaching, and support instructors in lessons. The goal is to provide students with the least restrictive environment irrespective of their exceptionality.

## B. Self-Assessment of Adherence to the INDICATORS OF QUALITY

### EDUCATIONAL PROGRAM STANDARD FOR ACCREDITATION

**The Standard:** The school’s educational program consists of carefully planned and well-executed programs of study that are based on appropriate content and learning standards, instructional methods, and assessments of student learning that reflect current research and best practices in learning and teaching. The educational program is aligned with the school’s Mission, approved by the governing body, and sufficiently financed and supported. The educational program is designed so that all students can achieve at the levels desired by the school’s community of stakeholders.

### ASSESSMENT AND EVIDENCE OF STUDENT LEARNING STANDARD FOR ACCREDITATION

**The Standard:** The school has a program for assessing student learning and performance that is consistent with the school’s Mission. The program is based on current research and best practices and is aligned with the school’s educational and instructional programs. The assessment program systematically collects and rigorously analyzes quantifiable and observable evidence of student learning and performance and growth using multiple, valid, and reliable assessments that are respected by the school’s community of stakeholders. The school expects all students to learn and demonstrate the knowledge, skills, and habits of mind required in the educational program. Students are learning and performing at the levels expected, or the school has and is implementing a plan to raise learning and performance to the expected levels.

**D. Implications for PLANNING**

**Instruction: Based on the total self-assessment for this Standard and its Indicators of Quality, respond to the following requirements that will inform the school's planning for growth and improvement.**

**List the school's significant strengths in meeting the Assessment and Evidence of Student Learning Standard.**

- Effective access to curriculum and grades/attainment levels by parents and students at 24/7
- The use of multiple assessments to gauge student academic levels
- Commitment by the school to employ individuals across the school responsible for data collection and analysis
- Use of Classroom Monitor by both Primary and Secondary British Sections to track student progress and attainment
- Continual upgrades to the programming of GradeQuick used by the American Section and the Parent Portal for access by stakeholders of student grades 24/7
- Use of MAP data, Primary data reports, teacher recommendations for appropriate cohort grouping in Middle School
- Use of technology to enhance communication of student progress

**List the school's significant areas in need of improvement in meeting the Assessment and Evidence of Student Learning Standard.**

Development of a whole school database that tracks student progress and attainment.

**Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to assessment and evidence of student learning that should be included in the action plan in the Plan for Growth and Improvement.**

Having a single location to house and store student achievement data is still an issue due to the variety of curricular offerings and suitability of one system for all.

### A.2. Student Services

**Describe the guidance and counseling services for students provided by the school (include guidance counseling, including personal, academic, college, and career, substance abuse counseling, social workers, etc).**

Guidance counseling services are offered through the Deans of Students and Assistant Heads across campus. In addition, each homeroom teacher is responsible for pastoral care for each student in their care. College and career counseling begins at the Key Stage 3 and Middle School levels through Grade/DP/Year offered by the Plan For Grad and Individual Graduation Plans. There is a designated college counselor [Dean and Assistant Head] for Grade/DP/Year 11-12. A school psychologist is available on campus through referral to our School Director, formally Whole School Principal, three days per week. Other psychological services are outsourced by vetted psychologists in the area for needs greater than what that school is able to support.

**Describe the Child Study Team services provided for students identified as having special needs (includes self-contained programs, resource centers, in-class support, therapies, including psychological, speech, physical, and occupational).**

Students in our care have mild exceptionalities based upon the support we are able to provide. In class support is offered in both Primary and Secondary with additional opportunities during break times and after school activities such as the Homework and Catch Up Clubs. The Learning Development Department in Secondary offer in-class support starting G/Y7 to 10 in English, Math, & Science for students with IEPs. 1:1 support is also offered during breaks for students who need extra help and reassurance for a specific topic or to work on their organizational skills or for exam preparation. in G/Y11 & 12 students who were on the LDD register are offered break support when needed and are closely monitored to ensure a smooth transitional period to college.

\*\*Our school does not offer any of the following: self-contained, resource, physical or occupational therapy. Our goal for all students is to provide the least restrictive learning environment. The students in our care have mild exceptionalities.\*\*

**Describe the special education services provided.**

The Learning Development Department (LDD) recognizes that students learn at different rates and that there are many factors that affect their academic achievements including their exceptionality. The LDD believes in equal opportunities of learning for students who are able to benefit from the mainstream curricula offered at the Modern English School Cairo (MES). The main aim is to ensure all students are able to have equal access to the high-quality education offered. Staff members of the LDD are fully committed in supporting students who have been identified as having special educational needs to maximize their learning and behavioral potential. Members of the department work with students to build skills through differentiation, scaffolding and organization. Secondary LDD support starts in Grade/Year 7 all through Grade/Year 10. The students are identified through several areas, Year 6 LDD referrals, assessments from specialized centers, previous academic records, teachers concern and referrals, and standardized assessment tools such as MAP/CAT. Elementary School LDD support starts at Foundation stage through to Year 6. The students are identified by classroom teachers who then refer the student to LDD. The first step for the LDD is to ascertain what support the class teacher has already put in place and then if further support is required, the LDD will complete further assessments to identify the need and next steps.

Each identified student has an Individual Educational Plan (IEP) catered according to his/her exceptionality to best serve their needs. The IEPs are written and reviewed three times per academic year, where meetings are held with parents and students to jointly set goals/targets and discuss current progress. A student, in the American Section, who is ineligible for an IEP, but has a temporal or permanent medical or physical impairment that may affect their education has a 504. Individual Educational Plans are also used in the Elementary School in the same way.

The Learning Development Department provides in-class support in English, Math and Science for students with IEPs. The main role of the support teachers is to work in close partnership and in a collaborative manner with the subject teachers and also to co-teach (in G7) to address the students' individual needs. 1:1 support is also offered during breaks for students who need extra help and reassurance for a specific topic or to work on their organizational skills or for exam preparation. In G/Y11 & 12 students who were on the LDD register are offered break support when needed and are closely monitored to ensure a smooth transitional period to college. Similar support is provided in the Elementary School with support also for social and developmental needs being addressed through the programmes delivered.

LDD puts in place special provisions for internal examinations in the four core subjects (English, Math, Science, Social/Global Studies). Some LDD students are withdrawn from the examination hall/classroom to receive the accommodations they are entitled to and that are listed on their IEPs, this can be in the form of extra time, a reader or scribe, different venue, enlargement of material or the use of a laptop.

The LDD Coordinators liaise with the American Principal, British Principal and IBDP Coordinator in order to determine who is in need of special provision for exam access arrangements in Secondary School. The formal application for Special Provision is sent to the relevant organization: the US College Board for the American Section, British Council for the British Section, and IBO for the IBDP Section. It is the task of the LDD Coordinator to provide a summary of the team recommendations and to collect evidence that can support the formal application.

In Secondary LDD also supports a Gifted & Talented Program (G&T) to identify students who are entitled to have their talent and exceptionality recognized and accelerated. LDD maintain a register for in-class differentiation and the G&T students have an opportunity to attend, by invitation only, A Challenge Club as part of the After School Activities program (ASA's). In Elementary School Gifted & Talented students are catered for within the classroom programme and through the provision in the extra-curricular programme. The policy outlines how to identify these students. CAT data is also used to identify exceptionalities.

### **Describe the use of instructional aides in the school.**

The Elementary School is well resourced with equipment needed for all lessons and this is utilized well by all staff. Teachers have an input into resourcing and each year, after an audit, complete a budget with a list with the resources required to meet the needs of the curriculum. We have two librarians who are accessed every class each week. There are also two computer suits which allow for an hour of computing each week. There are also i-pads to ensure technology is integrated throughout the curriculum and the BYOD policy in Year 5 and 6

ensures daily access to technology to enhance learning. There is a fully equipped Science Lab, Dance Studio and Art room. A fully equipped Sport Department ensures delivery of a high quality PE programme. We have 36 full time Teaching Assistants who provide teaching and learning support to class teachers and students. There are 4 levels of experience with the Level 4 Teaching Assistants taking a role of responsibility, such as special needs support. The Level 3 TLAs coordinate and support Level 1 and 2 Teaching Assistants. All TLAs are line managed by the Key Stage Deputy Heads. They work within the classroom and also withdraw students individually or in groups for support with their learning. They are fully involved in the planning sessions with teacher and take a role in the assessment of student progress by liaising closely with the class teacher and LDD. A comprehensive training is provided and delivered by teachers, senior leaders, and senior Teaching Assistants.

**Describe the food services for students provided by the school. If food services are not provided by the school, describe the provisions for students to eat during the school day.**

Food services in our school are outsourced to a company, however the quality of food provided and the healthy food options are overseen directly by our Managing Director. Students are given both a morning and afternoon break for the purpose of sustenance and exercise.

**Describe the transportation services for students provided by the school. If transportation is not provided by the school, describe how students travel to and from school.**

Families have the option to sign up for school transportation services. Students travel to and from school based upon a numbered bus that is documented in their family information sheet on the school database. Changes to transportation have to be approved by noon of the requested day. Students are not permitted to travel by alternative busses for events hosted by families beyond the school day.

**Describe any career awareness activities provided by the school.**

Career awareness activities are handled through the Individual Graduation Plan and Plan for Grad Sessions students enroll in UniFrog and complete a questionnaire along with student performance data. It will then match them up with qualifying universities across the world. Students are then to universities based upon their aptitude assessment. From Middle School through Grade 11, these exploratory counseling sessions are held with students and parents until plans are finalized and solidified ready for college applications in Grade/Year/DP12. Other exploratory resources are also used for students for future careers like [My College Majors](#), Thrively, and Career Village.

**Describe any school programs for the orientation of new students or the transitioning of students between schools/levels.**

Individual meetings are setup with each new student and their parent to come into the school to complete grade/year/DP appropriate activities. In Secondary, that would entail meeting their Dean or Assistant Head, discussion course options, future plans beyond the Secondary school, and their goals. In Primary, each child comes in for an assessment and feedback is given by respective Assistant Heads the program offering is discussed. New students are set

up with a classroom buddy who will give them a tour of the school and help them acclimate to our school. Routine tracking by Year Team Leaders and Deans and Assistant Heads continues throughout the academic year.

### **Describe the school's admission practices.**

First consideration is given to those students who already have siblings registered in the school. Second consideration is given to students who apply from schools which offer similar academic programmes or follow a similar academic syllabus. Third consideration is given to students with the most academic ability keeping in mind space availability and the date when the application was first processed. All other considerations may or may not play a major role in the admission process depending on the individual case.

- **Step 1:** Complete MES Cairo Application Form online.
- **Step 2:** Visit MES Cairo to
  - sign the application
  - submit the required documents (listed below).
  - set an appointment for the assessment
  - **Your application is not submitted into our system until step 1 and 2 are both completed.**
  - Assessment results are announced within 2 weeks from the assessment date. If accepted, a deposit will be required within seven days of receiving the acceptance call to secure the students place

\*Students must submit all required documents to the school. The Head or Principal of the respective section reviews the completed packet and makes a recommendation for enrollment and/or requests a student interview.\*

## **B. Self-Assessment of Adherence to the INDICATORS OF QUALITY**

### **STUDENT SERVICES STANDARD FOR ACCREDITATION**

**The Standard:** The school provides student services that are effective, appropriate, and that support student learning and achieving the school's Mission. The services are well-planned and well-delivered, and they are an integral part of and contribute to the school's educational program. Services are delivered by qualified personnel, sufficiently financed, and evaluated periodically for their effectiveness. Services comply with any requirements of the civil authorities of the jurisdiction(s) in which the school is located.

### **Indicators of Quality for all schools**

Stakeholder [students, parents, staff, administrators] numbers are listed first and represents a percentage;

School Advisories, and their representation, listed in the color coded chart in the section entitled *Profile of Organizational Capacity*, represents the second number in the chart as a percentage.

## B. Self-Assessment of Adherence to the INDICATORS OF QUALITY

### STUDENT LIFE AND STUDENT ACTIVITIES STANDARD FOR ACCREDITATION

**The Standard:** The school provides non-discriminatory student activities that are age- and developmentally appropriate and that supplement and enhance the school’s educational program. A balance of academic, social, co- or extracurricular and service activities is maintained. Student activities are designed to foster intellectual, cultural, and social growth and physical health and wellness. Activities provide opportunities for student leadership and social interaction, encourage the development of student interests, and, when appropriate, family involvement. Activities are adequately financed, periodically reviewed for their effectiveness, and appropriate for the school’s Mission.

### Stakeholders' comments to support the ratings:

**Instructions:**

- In the space below, list the stakeholders' comments regarding the school's adherence to this Standard and its Indicators of Quality. The school may list all comments made by stakeholders, or it may organize the comments by type and report only those comments that are made by a number of stakeholders.**

<b>Teachers &amp; Administrators</b>	<p><i>The school offers an extraordinarily wide range of activities for students outside of the classroom, though many students fail to take advantage of them. The code of conduct is well respected by staff and pupils alike, and promoted in a number of different ways to pupils.</i></p> <p>MEETS</p>
<b>Support Staff</b>	
<b>Students</b>	<p><i>The school gives various after-school activities, ranging all the way from musicals, choirs, and instrumental practice, sports, creative writing, extra homework help, community service and mentoring opportunities. And I believe that this is one the main aspects that make the school successful and stand out to the students and parents who want to apply. The teachers and all staff members are really supportive, and have the option to organize activities and clubs where they can pursue their passions/ hobbies with the students. The Sport staff know what they are doing and are very well qualified; The School always recognizes any accomplishment done by a student either through a ceremony or a student of the month award.</i></p> <p><i>The teachers are respectful and they reward students for certain accomplishments.</i></p>

	<i>MES provides a community which is by all means fair. Students are mentored and taught by professionals who are fair to each and every student.</i>
<b>Parents &amp; Community Stakeholders</b>	<p>Regular workshops and parent meetings occur throughout the year. Parents are invited to student conferences, parent meetings, student sports days and special events like the 24 hour run and graduation.</p> <p>The school has outstanding After School Activities for children in primary and secondary. Unfortunately, students in FS1, FS2 (and maybe Year 1) are not given access to these. Also it may be an idea to organise activities for FS1 students who do not go home at 1pm.</p>

## C. Self-Assessment of Adherence to the STANDARD FOR ACCREDITATION

*Instruction: After a rating has been assigned for each of the Indicators of Quality and after considering those ratings in the aggregate, make a determination whether, based on the school community's self-assessment, the school meets or does not meet this Standard for Accreditation.*

x	Our self-assessment is that our school <b>MEETS</b> this Standard for Accreditation.
	Our self-assessment is that our school <b>DOES NOT MEET</b> this Standard for Accreditation for the following reason(s):

## D. Implications for PLANNING

*Instruction: Based on the total self-assessment for this Standard and its Indicators of Quality, respond to the following requirements that will inform the school's planning for growth and improvement.*

List the school's significant strengths in meeting the Student Life and Student Activities Standard.

<p>Students have a variety of ASA's to choose some that would appeal to nearly every member of our student body;</p> <p>Participation rates for our student population has increased due to the improved number and variety of opportunities;</p>
---

Additional service after school activities were added due to high student interest;  
 All Secondary and Primary teachers sponsor some type of after school activity;  
 Improves student/teacher relationships and interactions;  
 Involvement in the school community deepens a student's connection to the institution;  
 Students develop and sharpen a wide variety of soft skills;  
 The school connects students with charitable organizations in the community;  
 Affords the opportunity for students to be risk-takers and try something new;  
 Significant increase, since the last accreditation, of ASA's that involve charitable organizations and serving others;  
 Survey students for interest;  
 Dedication of the Primary and Secondary ASA Coordinators to provide opportunities for students that they have shown interest in;  
 Improvement in the publications for the ASA's and using social media to allow students and families to be aware of the opportunities for students.

**List the school's significant areas in need of improvement in meeting the Student Life and Student Activities Standard.**

While we do not think this is an area we need to improve upon, we would like to continue to increase our outreach and service-based ASA's.

Continue to explore ways that parents and alumni can contribute in meaningful ways to the school, with a view to implementation.

**Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to student life and student activities that should be included in the action plan in the Plan for Growth and Improvement.**

Continue to review athletic and ASA participation and adjust offerings according to student need and interest.

## B. Self-Assessment of Adherence to the INDICATORS OF QUALITY

### INFORMATION RESOURCES STANDARD FOR ACCREDITATION

**The Standard:** The school's information resources are appropriate and adequate in scope, quantity, and quality to facilitate achieving the school's Mission and delivery of its educational program. The resources are accessible to all students and the staff for use in learning and teaching and to broaden and extend their knowledge and skills. Appropriate instruction is offered to the students and the staff on the appropriate, ethical, and most effective uses of the information resources. Information resources are current and functional.

# SELF-ASSESSMENT OF THE INDICATORS OF QUALITY FOR CURRICULUM, INSTRUCTION, AND ASSESSMENT

As part of its planning for growth and improvement, the school conducted an in-depth self-examination of the curriculum, instructional program, and assessment practices for those components of its educational program that are deemed essential to the areas of student performance that have been identified as the priorities for growth and improvement. Using the Middle States Indicators of Quality for curriculum, instruction, and assessment, this self-assessment required the school to look carefully at its written curriculum, how the curriculum is delivered to the students, and the practices used to assess the degree to which the students are achieving the learning goals of the curriculum.

The overall purpose of this self-assessment is to identify any aspects of the school's curriculum, instructional pedagogy, and assessment practices that need to be developed or improved to increase the likelihood that the school will be able to achieve the goals it set for growing and improving student performance. Areas identified for development and/or improvement should be included in the action plans for the measurable student performance and organizational capacity goals that are the heart of the Plan for Growth and Improvement.

## ***Instructions:***

- 1. Include in this section of the Self-Study Document, as a minimum, the results of the self-assessments of the school's curricular components that relate to the student performance objectives identified by the Planning Team.***
- 2. Include a three-part report (curriculum, instruction, and assessment) for each component of the educational program for which a self-assessment was conducted.***

# SELF-ASSESSMENT OF THE INDICATORS OF QUALITY FOR CURRICULUM, INSTRUCTION, AND ASSESSMENT IN:

- Ensuring excellent teaching and learning practices in English [reading, language, and writing skills] through a. consistent commitment to highly effective teaching and b. learning practices that challenges all students;
  - A review of homework purpose, function and outcomes
  - Effective use of data to monitor student progress and monitoring

## A. ISSUES Related to The Indicators Of Quality

The following requirements ask the school system to provide a self-assessment of expectations for quality for curriculum, instruction, and assessment in this component of the school's educational program. The information and data requested in this section are not for evaluation purposes. Instead, the information and data will assist the system in making the determination whether it meets the Standard and its Indicators of Quality.

- CURRICULAR COMPONENT SUMMARY:** *On the chart below, summarize the course/program offerings for this component of the educational program by completing each column as described.*

Grade Level: *Enter the grade level(s) at which each course/program in this curricular component is taught.*

Course Title: *List the course/program titles or topics taught (e.g. Language Arts, English IV, writing, journalism).*

The Head of Department for Math and the 7th grade math teacher will begin to use the ALEKS adaptive curriculum resource that will target student areas that need improvement. Teachers also receive an update of the cohorts and scores as per below.

**5. Rate the degree to which the school meets each Indicator by using the following scale:**

Rating of Adherence to the Indicator	
<b>1. Does Not Meet</b>	The evidence indicates the school system <b>does not meet</b> the expectations of this Indicator.
<b>2. Partially Meets/In Need of Improvement</b>	The evidence indicates that the school system <b>partially meets</b> the expectations of this Indicator and <b>is in need of improvement.</b>
<b>3. Meets</b>	The evidence indicates the school system <b>meets</b> the expectations of this Indicator.
<b>4. Exceeds</b>	The evidence indicates the school system <b>exceeds</b> the expectations of this Indicator.

## INDICATORS OF QUALITY FOR CURRICULUM

### Indicators of Quality for All Schools

\*All indicators are reported as a percentage\*

Indicator of Quality		1	2	3	4	N / A
CI.1	The development of the curriculum is based on a thorough assessment of the basic concepts, skills, and knowledge required of all students to fulfill the stated goals of the program.	0	0	20	80	
CI.2	The curriculum has established priorities, objectives, and goals for all courses and units within the program that are based on clearly defined expectations for all students.	0	0	40	60	
CI.3	The curriculum is designed to ensure the alignment of teaching strategies, learning activities, instructional support, instructional resources, and assessment.	0	0	20	80	
CI.4	The curriculum defines desired student outcomes as expressed in terms of student understanding, knowledge, attitudes, skills, and habits.	0	0	100	0	
CI.5	The curriculum provides experiences that promote students' critical thinking, reasoning, problem-solving skills, and study skills.	0	0	40	60	
CI.6	The learning expectations of the curriculum address the diverse learning needs of the students without compromising the essential knowledge and skills students are expected to learn.	0	0	20	80	
CI.7	Course objectives in the curriculum are simply stated and understandable to students.	0	0	40	60	
CI.8	The skills and knowledge of the curriculum are well-articulated and coordinated between all teachers at each grade level and by teachers across grade levels.	0	0	40	60	
CI.9	Elementary, middle level, and secondary level staff members work cooperatively to provide a meaningful and logical progression of learning activities in the curriculum.	0	0	40	60	
CI.10	The curriculum is designed to foster active involvement of students in the learning process.	0	0	20	80	

Cl.11	Instructional activities in the curriculum provide opportunities for both exploration and specialization in the content.	0	0	40	60	
Cl.12	The curriculum's objectives and expectations for learning are understood and supported by the school's community's stakeholders.	0	0	40	60	
Cl.13	Parents and students are provided appropriate opportunities to provide input into the development of curriculum.	0	0	100	0	
Cl.14	Written curriculum guides identify objectives and define the scope and sequence of the curriculum. The guides are functional and in use.	0	0	0	100	
Cl.15	Learning materials used in the curriculum are current and are selected to fulfill the goals and objectives of the curriculum.	0	0	20	80	
Cl.16	Current best practices, including the use of technology and other media, are considered in the selection of learning materials and media.	0	0	100	0	
Cl.17	Decisions made regarding the curriculum are based on data about student performance, knowledge about organizational development, and research about best practices in curriculum, instruction, and assessment.	0	0	0	100	
Cl.18	The content and instructional activities in the curriculum are consistent with the school's philosophy/mission.	0	0	0	100	
Cl.19	Administrative leadership and support are provided in the coordination and articulation of the curriculum.	0	0	0	100	
Cl.20	The curriculum is reviewed and evaluated regularly and systematically. The curriculum review/evaluation process includes safeguards to ensure that the written curriculum is actually taught. The review process focuses on what is to be deleted from the curriculum as well as what is to be added.	0	0	0	100

**Stakeholders' comments to support the ratings:**

***In the space below, list the stakeholders' comments regarding the school's adherence to the Indicators of Quality for Curriculum. The school may list all comments made by stakeholders, or it may list only those comments that are made by a number of stakeholders.***

-Curriculum is reviewed in response to a number of data collection points, responses from teacher, and observations made by those in a position of responsibility.

-Curriculum also reviewed and revised based upon developments with regulatory agencies [exam boards, DFE, the College Board, Common Core, National Science Standards]

-Curriculum is overseen and monitored by Senior Leaders, Heads of Department/Deputy Heads, and teachers

-Curriculum is made available for parents to review via Google Classroom; opportunities are given for parents to meet senior leaders to discuss the curriculum; assemblies are also held in the form of parent information sessions/workshops

**Stakeholders' comments to support the ratings:**

*In the space below, list the stakeholders' comments regarding the school's adherence to the Indicators of Quality for Instruction. The school may list all comments made by stakeholders, or it may list only those comments that are made by a number of stakeholders.*

-MES Cairo is a learning community and believes that effective teachers should take ownership and give a high priority to professional development. The school is committed to fostering a positive climate for continuous learning. CPD is the means by which the school is able to motivate and develop its community. It does so at a variety of levels - individual, team, whole school with an emphasis on collaborative learning. The CPD will be coordinated by a CPD leader who is a member of SSLT. The school's CPD needs and those of the school community are identified largely through existing mechanisms such as the appraisal system, teachers' self-evaluation, the school's self-evaluation system and through formal and informal discussions with individuals and teams.

The school supports a wide portfolio of CPD approaches identified according to 'Best Value' principles and which reflect the individual learning needs of the participants. These include:

- In-school training using the expertise available within school and collaborative activity (eg. collaborative teaching, collaborative planning and assessment, classroom observation, peer evaluation, collaborative enquiry)
- Coaching and mentoring and engaging in professional dialogue
- Job enlargement e.g. a departmental initiative
- Accessing external consultants
- Model and demonstration lessons
- Simulations
- Attendance at a course or conference
- Research opportunities
- Distance learning

In order to evaluate the potentially wider impact of professional or other development, the participant discusses with the CPD Leader the opportunities to disseminate to other staff. Relevant feedback about the provision and the ideas should be provided for the CPD Leader. Where it is agreed that there would be benefit in a wider circulation or follow-up, the CPD Leader is responsible for organising that, eg circulating relevant resources, a session at a staff or subject meeting, introducing a teaching or learning strategy, inclusion on the school website.

The CPD leader in consultation with SLT shall assess the 'value for money' aspect of CPD through seeking to monitor and evaluate impact on:

- pupil and school attainment
- curriculum development
- more effective and embedded teaching and learning such as promoting creativity, autonomy, a greater variety of teaching and learning approaches
- a climate of supporting success and effort
- staff confidence, enrichment, motivation, self-esteem, willingness to take risks, collaboration, reflectiveness
- pupil enthusiasm, engagement and commitment
- recruitment and retention
- career progression/promotable staff

### C. ROOT CAUSE ANALYSIS

**Instructions:**

- If the determination is that the school does not meet or is in need of improvement for one or more of the Indicators of Quality, conduct an analysis to develop hypotheses regarding the root cause(s) for the gap between the expected level of quality as defined by these Indicators of Quality and the actual level of quality as determined in the self-assessment of this component of the school's educational program.**
- Hypotheses are formed by examining and analyzing the information and data provided by the self-assessment and answering the questions in the following table.**

**Describe any improvements related to this component of the educational program made within the past five years.**

**List the significant strengths of the school in this component of the educational program.**

**List the significant areas for improvement of the school in this component of the educational program.**

**Based on the strengths and areas for improvement identified, list any important next steps or strategic priorities related to this component of the educational program that should be included in the action plans in the Plan for Growth and Improvement.**

## **D. Implications for PLANNING**

***Instruction: Based on the total self-assessment of the degree to which this curriculum area meets the Indicators of Quality for curriculum, instruction, and assessment, respond to the following requirements that inform the school's planning for growth and improvement.***

**List the significant strengths in this curriculum area regarding the Indicators of Quality for curriculum, instruction, and assessment.**

-Development of curriculum, thorough review and planning, and data reflection  
 -Our professional development program to ensure the quality of instruction is robust and responsive to staff and student needs  
 -Our after school activities, athletic programs, student outreach, and leadership opportunities afford students the opportunity to be reflective, problem-solving members of our community  
 -Since the appointment of the Whole School Principal in 2016, there has been a commitment to one school ethos. This has extended to a number of workshops, discussions, meetings which has resulted in the alignment of curriculum, shared goals, and vision

**List the significant areas in need of improvement in this curriculum area regarding the Indicators of Quality for curriculum, instruction, and assessment.**

-Consistently positive classroom environment  
 -Embedding MES standard and expectations across our school in light of high teacher turnover  
 -Use of interactive and collaborative technologies across the school to consistently enhance learning outcomes

**Based on the strengths and areas for improvement identified in this curriculum area, list any important next steps or strategic priorities related to this curriculum area that should be included in the action plan in the Plan for Growth and Improvement.**

-Refer to the Whole School Development Plan [in appendix area and in evidence file Standard 1]

## **E. EVIDENCE to Support the Self-Assessment of Adherence to the Indicators of Quality for Curriculum, Instruction, and Assessment**

**Instructions:**

- 1. The evidence listed in the table below, where applicable, should be referred to in the self-assessment process. Please note that some listed materials may overlap with those identified in another chapter.**
- 2. In addition, the evidence listed in the table below, where applicable, is to be provided to the Visiting Team in its workroom during the Team's visit.**

## THE PLAN FOR GROWTH AND IMPROVEMENT

### **Instructions:**

- 1. The Protocol requires that the school submits its performance/capacity objectives to the Commissions' staff for technical review and approval prior to the Team Visit.**
- 2. In the spaces provided below, place the objectives together with their baseline data exactly as they were approved by the Commissions' staff.**
- 3. MSA requires between 3 and 5 objectives with at least two of them focusing on growing and improving areas of student performance. The other objectives will be focused on improving organizational capacity.**

### **The Restorative Approach**

Following a successful trial in Key Stage 2, restorative practice has been rolled out across Primary this year. **Baseline data** from the 2018-19 trial showed that repeated low level behaviors and behavior book incidents were 44% lower in year groups where this approach had been implemented. By September 2019, 100% of Primary teachers will receive training on the restorative approach. 100% of all teachers will make use of the set of questions to initiate a discussion with students who have demonstrated negative behavior, ensuring this incident does not occur again. Detentions have been removed and been replaced with these discussions called 'reflections'. The ultimate goal is to see a decrease in student behavioral incidents across the Primary as a result of the restorative initiative.

## 2- Secondary -

The PASS diagnostic is a multi-factorial measure of students attitudes to school and self, learning and success. Its robust nature enables the data it yields to be used as a means of establishing baselines and supports effective planning, implementation and evaluation of interventions at individual, group and whole school levels. PASS provides us with evidence of students' perceptions of the school and their learning experience. PASS is taken by students at the end of their primary schooling and bi-annually thereafter. Changes in attitudes in individuals can be highlighted

#### 7 YEAR DEVELOPMENT PLAN - 2018/2019 to 2024/2025

##### PREAMBLE

As MES Cairo approaches its 30<sup>th</sup> anniversary since establishment, it is timely to reflect on our achievements both historical and current. Our success is measurable in an infinite number of ways: student progress and attainment, roll growth, reputation locally and internationally to name a few. Those successes happen by design, not chance. Careful strategic planning for growth and development forms an inherent part of our business; we recruit competent and experienced school leaders to work alongside our well-established Board of Directors to best ensure that MES Cairo maintains its position as an outstanding school according to local and international standards.

Given the rapid rate of change in our modern world, accurately forecasting our future reality beyond a year or two is a challenge. Accordingly, MES Cairo anticipates needs and aspirations on a 7 year cycle, whilst committing to an annual cycle of intimate review and design of the Whole School Development Plan (WSDP). Our 7 year strategic plan is expressed in general terms, with each WSDP applicable within that 7 year cycle articulating specific details of identified priorities and action plans towards progress.

##### OUR STRATEGIC REVIEW AND PLANNING CYCLE

###### EVERY 7 YEARS

- Mission and Vision are reviewed
- Graduate Profile is reviewed
- Articulate priorities for future growth and development in response to the following questions:
  - Where are we at?
  - Where do we want to be?
  - What are our challenges?
  - What are our priorities?
- Engage in MSA: Excellence by Design - self-study and accreditation

###### EVERY 5 YEARS

- IBO re-accreditation which involves engagement in their Self-Review framework and external audit

###### EVERY 3.5 YEARS

- Mid-cycle assessment of 7 year development priorities
- MSA mid-cycle review

###### EVERY 3 YEARS

- All school policies and practices are reviewed at least every 3 years, most are reviewed annually (refer to the policy review cycle). We review as changes to legislation, accreditation standards and other needs arise.
- Job descriptions are reviewed at least every 3 years or when the position becomes vacant, many are reviewed annually.
- We volunteer for BSO accreditation – intensive self-review against DfE UK standards and an independent inspection
- We undertake AdvancEd Accreditation which includes self-review and a visit by an external audit team

#### **EVERY YEAR**

- School Development Plan – Whole School DP, Sectional DP, Departmental DP
- School Development Advisories – agendas are defined and constituency is decided upon
- Annual budget review (including staffing and resourcing) – short term and long term needs are fore
- Curriculum review – a full audit of curriculum is undertaken with adjustments made for the following year in response to approved recommendations.
- CPD priorities are reviewed and defined
- Full Review of Staff Handbooks
- Full Review of Student Handbooks
- Stakeholder Surveys
- All teaching staff participate in the Professional Development Portfolio – gives all teachers input on future school priorities
- MOE Egypt compliance audit throughout each year
- Exam authorities can and do visit for ‘inspection’: IBO, College Board, Cambridge (CIE)

#### **STRATEGIC PLANNING: PARAMETERS**

- Our Mission Statement and Graduate Profile underpin all strategic planning
- We focus on 3 or 4 broad areas of the school in our annual WSDP, which correlate directly with our agreed 7 year cycle objectives.
- Annual WSDPs articulate immediate priorities for the year, stating how we intend to make progress with our agreed long term goals in that specific year. Naturally, there is a great deal of continuity from year to year as we build upon successes and learn from challenges.
- The WSDP states school-wide aims, means of measuring progress and impact, responsibilities, resourcing (including resource implications and timeframe).
- Each Section then interprets their own pathway to achieving progress aligned to the WSDP aims. Their Sectional and Departmental Development Plans state how progress will be sought and measured at the operational level of the school.
- Sectional Development Plan progress is audited annually by SLT members.
- Whole School Development Plan progress s audited annually by members of respective SDAs and SLT.

#### **THE AIMS OF OUR 7 YEAR STRATEGIC PLAN**

**OBJECTIVE ONE: Ensure excellent teaching and learning practices**

**OBJECTIVE TWO: Define and develop school culture**

**OBJECTIVE THREE: Enhance student engagement and learning outcomes with appropriate instructional technologies**

*Insert Mission, Beliefs and Profile of Graduate here...*

*Modern English School Cairo is a learning community which provides a high quality education for children from Foundation Stage 1 to university entrance level, serving the needs of Egyptian and international families in Cairo. Our broad education is based upon the British Curriculum in Primary. In Secondary, we offer a choice between a British Curriculum, an American Curriculum and the International Baccalaureate Diploma Programme. Arabic and Religious Studies are taught throughout the school.*

*Our Mission: Leadership through Education: Care, Challenge, Inspire*

**We believe in...**

- \* recognising the value of each individual and his/her relationship with others.*
- \* promoting international understanding and responsible citizenship in a multicultural context, reflecting the best of Arab, Western and other world cultures.*
- \* providing a supportive, inspiring environment which encourages learners to aim high and achieve their aspirations.*
- \* creating opportunities for all to develop confidence, responsibility and integrity.*

General Comments about All Objectives:

		Yes	No
1	Has the school identified three, four, or five objectives for accreditation purposes?	X	

Comments: MES Cairo has submitted four objectives for accreditation:

1) Ensuring excellent teaching and learning practices in English [reading, language, and writing skills] through a. consistent commitment to highly effective teaching and b. learning practices that challenges all students;

2) Ensuring excellent teaching and learning practices in Mathematics through a. consistent commitment to highly effective teaching and b. learning practices that challenges all students;

3) Enhance student engagement and learning outcomes with appropriate instructional technologies that a. builds a collaborative classroom and b. integrated school-wide through the use of Google Classroom;

4) Define and develop school culture by a. reinforcing our core beliefs and mission. b. instilling in all students and staff an understanding of our aspirations and expectations. c. defining our well-being agenda for the benefit of the greater school community.

		Yes	No
2	Do at least two of the objectives focus on growing and improving areas of student performance as expressed in the school's Mission and Profile of Graduates?	X	

Comments: All three objectives are aimed at positively influencing student performance in line with our mission and aspiration graduate profile. As a school we are driven in all that we do to impact on students and their learning outcomes, not only in terms of academic possibilities but in terms of all aspects of their intellectual, social, emotional and character development. Our three objectives reinforce the ideology and ethos expressed in our school's mission and vision to care for, challenge and inspire every student so that they are best equipped to achieve their personal goals.

Technical Review for Student Performance Objectives:

Student Performance Objective #1: As submitted by the school

- Ensuring excellent teaching and learning practices in English [reading, language, and writing skills] through a. consistent commitment to highly effective teaching and b. learning practices that challenges all students;
  - A review of homework purpose, function and outcomes

- Effective use of data to monitor student progress and monitoring
- An improvement in the standard of teaching across the school from consistently good to consistently better than good

By 2026, all students from Foundation Stage 2 through DP/Grade/Year 12 will improve reading, language and writing skills, which will be measured accordingly in each section of the school:

Student Performance Objective #1: Technical Review Criteria

		Yes	No
1	Is the objective stated as a desired end result in student performance? (What do we expect our students to know? What do we expect them to do with what they know? And/or What qualities or characteristics do we want them to demonstrate?)	X	

Comments:

Objective 1 articulates our aim for all teachers to best ensure that their teaching is effective and challenging, with improved student outcomes the return on their investment of time and effort. We have given priority focus to ensuring that every student, regardless of ability upon entry, be challenged in their learning with all teachers ensuring a pathway to improved performance and understanding over time. In keeping with our learning culture of Care, Challenge and Inspire, we seek to motivate every student to use their learning, in all its forms, to make a positive difference in their lives as well as the lives of others. Through challenge we guide students to realize their infinite potential and to embed a love of learning.

		Yes	No
2	Does the objective address expectations for as many of the school's students as possible?	X	

Comments:

Our commitment to Objective 1 will benefit all learners. The sentiment of the objective is interpreted in age-appropriate ways at different phases of the school; all teachers are committed to realizing the objective in ways that reflect the vastly different needs of their students, both in terms of cohort identity and in terms of variance within each classroom.

Yes	No
-----	----

3	Does the objective relate to culminating expectations for students at or near the end of their experiences in the school?	X	
---	---	---	--

Comments:  
 The majority of students at MES Cairo are with us from 3.5 years of age until graduation from school. Therefore the goals set forth by the graduate profile are reinforced and taught from Primary through to Secondary.

		Yes	No
4	Is the objective related to improvement in an area of academics? (Note: If none of the student performance objectives relate to academics, the school needs to be prepared to explain why academics are not a priority for growth over the next seven years. In addition, public schools need to be prepared to provide an explanation if their improvement objectives and plan do not include areas of student performance mandated for improvement under federal/state requirements.	X	

Comments: While our school is not obligated under federal or state guidelines to provide data on academic performance, this objective within the development plan is about the improvement of student learning and their classroom experiences. Within each sectional plan, each department or year group provides goals that support the objectives for the whole school.

		Yes	No
5	Is the realization of the objective stated as seven years from the year of the team's visit?	X	

Comments: These objectives reflect a seven year plan where goals and measures are varied to help our school continuously improve in these areas through 2026 [attached].

		Yes	No
6	Has the school identified how it will measure progress toward the objective over the next seven years, i.e.:		
	1) Are baseline data included for each assessment? (MSA requires that at least one measure has baseline data in place by the time the team arrives.)	X	
	2) Is the baseline year in which the data for each assessment were collected included?	X	
	3) Are challenging and appropriate seven-year performance targets set for each assessment used to measure achievement of the objective?	X	

Comments: In the Primary, baseline data along with the formative assessments are included in the data analysis [Reading and Writing] that are internally created. In the Secondary American section, we addressed the multiple forms of assessment and have included baseline data for each [MAP, PSAT, and AP], which are externally created. In the Secondary British section all assessments are set and marked externally [CAT, IGCSE, A-Levels]. In the Secondary IB section, internally assessed components are moderated by the IBO, as are externally assessed components. We keep abreast of assessment standards with all external examination boards we work with and 'assessment for learning' and 'assessment of learning' is featured in our WSDP and CPD priorities.

		Yes	No
7	Has the school identified multiple forms of assessment to measure accomplishment of this objective when appropriate and available?	X	

Comments: Multiple forms of assessment have been included in the self-study and noted here for each section of the school.

Yes	No
-----	----

8	Are disaggregated data included where appropriate?	X	
Comments: The data is disaggregated by year/grade and/or section for the school.			

		Yes	No
9	Is the objective measured by both external and internal assessments when appropriate and available?	X	
Comments: In the Secondary School, all assessments noted were developed externally and measured and compared to global, international, UK, and/or domestic school scores. In Primary, students take assessments in writing, reading, and math that are both internally created and moderated. Those assessment results are compared with those against the UK achievement levels.

Organizational Capacity Objective #1: Technical Review Criteria

		Yes	No
1	Is the objective stated as a desired end result in student performance? (What do we expect our students to know? What do we expect them to do with what they know? And/or What qualities or characteristics do we want them to demonstrate?)	X	

*Comments: The desired outcome for this goal is that not will students use technology to enhance their own learning experiences, but that the overall use is consistent and congruent across campus. The learning experiences and accessibility issues will allow for better communication with our parent community, students will be well informed, and lessons will use technology in an interactive manner where appropriate.*

		Yes	No
2	Does the objective address expectations for as many of the school's students as possible?	X	

Comments: This goal is inclusive of the very youngest students in our school, FS1 through to our DP/Grade/Year 12's.

		Yes	No
3	Does the objective relate to culminating expectations for students at or near the end of their experiences in the school?	X	

Comments: The use of technology to enhance learning experiences is a 21st Century skill and one that will take them into university and beyond. Communication and collaboration are among the 5 C's in Education.

		Yes	No

4	Is the objective related to improvement in an area of academics? (Note: If none of the student performance objectives relate to academics, the school needs to be prepared to explain why academics are not a priority for growth over the next seven years. In addition, public schools need to be prepared to provide an explanation if their improvement objectives and plan do not include areas of student performance mandated for improvement under federal/state requirements.	X	
---	--	---	--

Comments: To engender the ability to view technology to enhance a child's learning experiences does transition them into University and life. True collaboration is an essential life skill and is a 21st Century skill as well as a desired soft skill that is desirable for major corporations.

		Yes	No
5	Is the realization of the objective stated as seven years from the year of the team's visit?	X	

Comments: This goal will develop and will be modified because technology and the needed soft skills change over time. However, it is a commitment of the school for it to be a long-term goal and focus.

		Yes	No
6	Has the school identified how it will measure progress toward the objective over the next seven years, i.e.:		
	1) Are baseline data included for each assessment? (MSA requires that at least one measure has baseline data in place by the time the team arrives.)	X	

	2) Is the baseline year in which the data for each assessment were collected included?	X	
	3) Are challenging and appropriate seven-year performance targets set for each assessment used to measure achievement of the objective?	X	
<p>Comments: MES Cairo has identified and outlined the cycle of review and revision in the 7 year plan and how the annual review cycle works and meshes with the various accrediting bodies. Baseline data and surveys for this objective are disseminated twice per academic year and informs the basis for professional development.</p>			

		Yes	No
7	Has the school identified multiple forms of assessment to measure accomplishment of this objective when appropriate and available?	X	
<p>Comments: Staff surveys and the Google Classroom audit by Heads of Department and Year Team Leaders are in place. The use of technology to enhance learning is also noted and shared best practices in departmental or grade-level meetings and noted in each teachers professional development portfolio.</p>			

		Yes	No
8	Are disaggregated data included where appropriate?	X	
<p>Comments: The data is disaggregated by year/grade and/or section for the school where appropriate.</p>			

		Yes	No
<hr/>			

9	Is the objective measured by both external and internal assessments when appropriate and available?	X	
Comments: The surveys and audits are created internally. The <u>PASS</u> Survey is created externally.

Organizational Capacity Objective #2: As submitted by the school

- By 2026, MESC will define and develop school culture
  - Reinforce our core beliefs and mission
  - Instill in all students and staff an understanding of our aspirations and expectations
  - Define our well-being agenda

#### 1 - Primary

##### The Restorative Approach

Following a successful trial in Key Stage 2, restorative practice has been rolled out across Primary this year. Baseline data from the 2018-19 trial showed that repeated low level behaviors and behavior book incidents were 44% lower in year groups where this approach had been implemented. By September 2019, 100% of Primary teachers will receive training on the restorative approach. 100% of all teachers will make use of the set of questions to initiate a discussion with students who have demonstrated negative behavior, ensuring this incident does not occur again. Detentions have been removed and been replaced with these discussions called 'reflections'. The ultimate goal is to see a decrease in student behavioral incidents across the Primary as a result of the restorative initiative.

#### 2- Secondary -

The PASS diagnostic is a multi-factorial measure of students attitudes to school and self, learning and success. Its robust nature enables the data it yields to be used as a means of establishing baselines and supports effective planning, implementation and evaluation of interventions at individual, group and whole school levels. PASS provides us with evidence of students' perceptions of the school and their learning experience. PASS is taken by students at the end of their primary schooling and bi-annually thereafter. Changes in attitudes in individuals can be highlighted

(Y6 2018/9) students

Targets for 2020-21 Y8 students

To increase Year group PASS factor by 3% to increase Year group PASS factor by 3% in all 9 aspects

(Y8 2018/19) PASS Y8 Cohort Data

Targets for 2020/21 ( Y10 results)

To increase Year group PASS factor by 3% in all 9 aspects

3 - Whole School -

\*Baseline data 2017-2018 - 77.4% of all Parents believed the school’s direction and purpose was clearly communicated; 82.4 % of all students answered the same question in affirmation; 84.14% of all staff felt that the aims and the vision of the school were clear and 78.91% of staff stated the mission and vision are evident in the Whole School Development Plan.

\*Baseline Year 2018-2019 - Developing a well-being agenda for students and staff starting through the use of Educare Modules for teachers. The goal is to have 100% of the well-being agenda defined for staff and students by the end of the 2019-2020 academic year. Implementation will take place and more fully developed over the next 7 years.

Organizational Capacity Objective #2: Technical Review Criteria

		Yes	No
1	Is the objective stated as a desired end result in organizational capacity? (What does the school have to do better or differently in its programs, services, activities, and/or operations to produce the levels of student performance desired?)	X	
<p>Comments: The school will demonstrate a stronger commitment that continues with our alumni that supports our core beliefs. Our aspirations that all students develop into the qualities stated in our Graduate Profile is supported by the 5 R’s for Primary and the Elements in Secondary. Key focus is threaded through our behavior plans, our character education programs, the merit program, as well as classroom communications.</p>			

Yes	No
-----	----

2	Does the objective address one or more areas addressed by the Middle States Standards for Accreditation in need of growth and/or improvement in order for the school to be able to achieve the desired levels of student performance?	X	
---	---	---	--

Comments: The objective addresses the standard for Health and Safety as our school is developing a well-being program for teachers and students. It correlates with School Improvement Planning and School Organization and Staff.

		Yes	No
3	Is the realization of the objective stated as seven years from the year of the team's visit?	X	

Comments: The year of realization is correctly stated as 2026.

		Yes	No
4	Has the school identified how it will measure progress toward the objective over the next seven years, i.e.:		
	1) Are baseline data included for each measure? (MSA requires that at least one measure has baseline data in place by the time the team arrives.)	X	
	2) Is a baseline year in which the data sets for each assessment were collected included?	X	
	3) Are challenging and appropriate seven-year performance targets set for each assessment used to measure achievement of the objective?	X	

Comments: Baseline data has been used in the form of student, staff, and parent surveys from 2017-2018 and 2018-2019. Staff and student surveys administered over the next 7 years will also include elements regarding personal well-being and emotional support in an environment where student achievement is vital to student success. The current use of the PASS survey measures the student's attitudes towards self and school. Restorative practices will be implemented which will impact the number of behavior reports and school satisfaction rates overall.

		Yes	No
5	Has the school identified multiple forms of assessment to measure accomplishment of this objective when appropriate and available?	X	

Comments: Baseline data is a result of externally created surveys, the need for a well-being agenda was developed from current research and overall student and teacher satisfaction rates from exit interviews and externally created surveys.

		Yes	No
6	Are disaggregated data included when appropriate?	X	

Comments: The data is disaggregated by year/grade and/or section for the school where appropriate.

		Yes	No
7	Is the objective measured by both external and internal assessments when appropriate and available?	X	

Comments: The baseline data was a result of surveys completed as a part of another accreditation including the PASS survey. Those were created externally for school use. The attitudinal disposition survey for staff was created internally.
